IronNet, Inc.
Notes to Unaudited Condensed Consolidated Financial Statements
(shares and dollars in thousands, unless stated otherwise)

1. Organization and Summary of Changes in Significant Accounting Policies

IronNet, Inc., formerly known as LGL Systems Acquisition Corporation ("Legacy LGL"), was incorporated in the state of Delaware on April 30, 2019 for the purpose of entering into a merger, share exchange, asset acquisition, stock purchase, recapitalization, reorganization or other similar business combination with one or more businesses or entities.

On March 15, 2021, Legacy LGL entered into an Agreement and Plan of Reorganization and Merger ("Merger Agreement"), as amended on August 6, 2021, by and among Legacy LGL, LGL Systems Merger Sub Inc. (the "Merger Sub") and IronNet Cybersecurity, Inc. ("Legacy IronNet"). On August 26, 2021, the Merger Agreement was consummated and the Merger was completed (the "Merger"). In connection with the Merger, Legacy LGL changed its name to IronNet, Inc., and the New York Stock Exchange ("NYSE") ticker symbols for its Class A common stock and warrants were changed to "IRNT" and "IRNT.WS" respectively.

The Merger was accounted for as a reverse recapitalization. Under this method of accounting, Legacy LGL has been treated as the acquired company for financial reporting purposes. This determination was primarily based on Legacy IronNet's existing stockholders being the majority stockholders and holding majority voting power in the combined company, Legacy IronNet's senior management comprising the majority of the senior management of the combined company, and Legacy IronNet's ongoing operations comprising the ongoing operations of the combined company. Accordingly, for accounting purposes, the Merger was treated as the equivalent of Legacy IronNet issuing shares for the net assets of Legacy LGL, accompanied by a recapitalization. The net assets of Legacy LGL were recognized at fair value (which was consistent with carrying value), with no goodwill or other intangible assets recorded. As a result of Legacy IronNet being the accounting acquirer in the Merger, the financial reports filed with the SEC by the Company subsequent to the Merger are prepared as if Legacy IronNet is the accounting predecessor of the Company. The historical operations of Legacy IronNet are deemed to be those of the Company. Thus, the financial statements included in this report reflect (i) the historical operating results of Legacy IronNet prior to the Merger; (ii) the consolidated results of the Company, following the Merger on August 26, 2021; (iii) the assets and liabilities of Legacy IronNet at their historical cost; and (iv) the Company's equity structure for all periods presented. The recapitalization of the number of shares of common stock is reflected retroactively to the earliest period presented based on the exchange ratio established in the Merger and will be utilized for calculating loss per share in all prior periods presented. The exchange ratio in the Merger was 0.8141070 of a share of Company common stock per fully-diluted share of Legacy IronNet common stock.

Throughout the notes to the consolidated financial statements, unless otherwise noted, "we," "us," "our," "IronNet," the "Company," and similar terms refer to Legacy IronNet and its subsidiaries prior to the consummation of the Merger, and IronNet, Inc. and our subsidiaries after the Merger.

Basis of Presentation and Principles of Consolidation

The interim condensed consolidated financial statements and accompanying notes are unaudited and have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") and regulations of the U.S. Securities and Exchange Commission ("SEC") for interim financial reporting. The Company's condensed consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. All intercompany transactions and balances have been eliminated upon consolidation.

These unaudited interim condensed consolidated financial statements should be read in conjunction with the annual consolidated financial statements of IronNet, Inc. and accompanying notes thereto included in the Company's Annual Report on Form 10-K for the year ended January 31, 2022. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements.

The Company's fiscal year ends on January 31. References to fiscal 2023, for example, refer to the fiscal year ending January 31, 2023. The results of operations for the three and six months ended July 31, 2022 are not necessarily indicative of the operating results that may be expected for the full fiscal year ending January 31, 2023 or any future period.

The accompanying unaudited condensed consolidated financial statements contain all adjustments, consisting of only normal recurring adjustments (except as otherwise noted), necessary for a fair statement of the Company's financial position as of July 31, 2022, its results of operations for the three and six months ended July 31, 2022 and 2021, changes in stockholders' equity for the three and six months ended July 31, 2022 and 2021, and cash flows for the six months ended July 31, 2022 and 2021.

Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Such estimates and assumptions include, but are not limited to, the period of benefit for deferred commissions, the useful life of property and equipment, stock-based compensation expense, fair value of warrants, and income taxes. If the underlying estimates and assumptions upon which the financial statements are based change in future periods, actual amounts may differ from those included in the accompanying condensed consolidated financial statements.

Liquidity

As of July 31, 2022, the Company had cash and cash equivalents of \$9,650, receivables of \$9,227, and no debt. In February 2022, the Company entered into an equity line with Tumim Stone Capital, LLC ("Tumim") under which the Company may, in its discretion, sell shares of its common stock to Tumim for proceeds of up to \$175,000, subject to various conditions and limitations set forth in the purchase agreement with Tumim. Proceeds from sales of common stock under the equity line facility with Tumim may be available to the Company to fund future operations in the absence of any material adverse conditions. Based on the current price of our common stock as of the date of this report, we estimate that we would not be able to raise more than approximately \$20 million in proceeds under the equity line facility before certain of the ownership limitations applicable to Tumim would be exceeded.

On September 14, 2022, the Company also entered into a securities purchase agreement with 3i LP, or 3i, which is an affiliate of Tumim, pursuant to which the Company will issue a senior unsecured convertible promissory note to 3i for gross proceeds to the Company of \$10,000 and may, subject to a number of conditions set forth in the securities purchase agreement with 3i, including specified minimum trading prices and trading volumes, and the repayment or conversion of a specified portion of the initial convertible promissory note, borrow an additional \$15,000 from 3i on the same terms and conditions as will be set forth in the initial convertible promissory note. See Note 14 for more information.

The Company's future capital requirements will depend on many factors, including, but not limited to the rate of its growth, its ability to attract and retain customers and their willingness and ability to pay for the Company's products and services, and the timing and extent of spending to support its multiple and ongoing efforts to market and continue to develop its products. Further, the Company may enter into future arrangements to acquire or invest in businesses, products, services, strategic partnerships, and technologies. The proceeds available under the equity line with Tumim and under the convertible note financing with 3i may not be sufficient to fund the Company's operations, in which case the Company will be required to seek additional equity or debt financing. In the

event that additional financing is required from outside sources, the Company may not be able to raise it on terms acceptable to it or at all. If additional funds are not available to the Company on acceptable terms, or at all, the Company's business, financial condition, and results of operations would be adversely affected.

The Company plans to continue to focus its activities on serving cybersecurity detection and response efficiencies of large, critical infrastructure companies and enterprises, including an increased focus on critical suppliers in the defense industrial base. The Company believes that significant opportunities exist for the Company to expand in these sectors, both in the United States and allies of the United States abroad. Growing its position in these customer segments would provide for additional cash flows to be generated from the Company's operations. Although the Company has historically been successful in securing and implementing customer contracts, uncertainties exist about the ultimate size of this market and the timing and ability of the Company to continue to secure and to expand opportunities in these customer segments.

In parallel with this increased customer focus, the Company is also reducing its operating expenses through a planned reduction in personnel and other reductions of expenses that are not closely directed towards these key focus areas. The Company is also working to improve its operating margins through modifications to its cloud-based computing architectures with a goal of improving efficiencies. Both actions are underway. As described in Note 14 below, the Company is undertaking a personnel reduction of approximately 35% of its workforce.

Despite the Company's current operating plans to focus its business, to reduce its expenses and to improve its margins and mitigate uncertainties related to them, management believes that the Company may not have sufficient cash and cash equivalents on hand to support current operations for at least one year from the date of issuance of these consolidated financial statements without additional financing. Management has concluded that this circumstance raises substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments that might become necessary should the Company be unable to continue as a going concern.

Recent Accounting Pronouncements Not Yet Adopted

In June 2016, the Financial Accounting Standard Board ("FASB") issued Accounting Standards Update ("ASU") 2016-13, *Measurement of Credit Losses on Financial Instruments* (Topic 326). This standard requires a new method for recognizing credit losses that is referred to as the current expected credit loss ("CECL") method. The CECL method requires the recognition of all losses expected over the life of a financial instrument upon origination or purchase of the instrument, unless the Company elects to recognize such instruments at fair value with changes in profit and loss (the fair value option). This standard is effective for the Company for the earlier of the fiscal years beginning after December 15, 2022 or the time at which the Company no longer qualifies as an emerging growth company ("EGC") under SEC rules. Management is currently evaluating the potential impact of this guidance on its financial statements.

New Accounting Pronouncement Adopted in Fiscal 2023

In February 2016, the FASB issued ASU 2016-02, *Leases* (Topic 842) ("Topic 842"), which outlines a comprehensive lease accounting model that supersedes the previous lease guidance. The guidance requires lessees to recognize lease liabilities and corresponding right-of-use assets for all leases with lease terms greater than 12 months. It also changes the definition of a lease and expands the disclosure requirements of lease arrangements. In July 2018, the FASB issued ASU 2018-11, *Leases (Topic 842) - Targeted Improvements*, which provides the option of an additional transition method that allows entities to initially apply the new lease guidance at the adoption date and recognize a cumulative-effect adjustment to the opening balance of retained earnings in the period of adoption. The Company adopted the standard on February 1, 2022 using the modified retrospective basis. Using the modified retrospective approach, the Company determined an incremental borrowing rate at the date of adoption based on the total lease term and total minimum rental payments.

The modified retrospective approach provides a method for recording existing leases at adoption with a cumulative adjustment to retained earnings. The Company elected the package of practical expedients which permits the Company to not reassess (1) whether any expired or existing contracts are or contain leases, (2) the lease classification for any expired or existing leases, and (3) any initial direct costs for any expired or existing leases as of the effective date. The Company also elected the practical expedient to use hindsight when determining the lease term, and the practical expedient lease considerations to not allocate lease considerations between lease and non-lease components for real estate leases. As such, real estate lease considerations are treated as a single lease-component and accounted for accordingly. The Company excludes leases with an initial term of 12 months or less from the application of Topic 842.

Adoption of the new standard resulted in the recording of \$974 and \$2,654 of current operating lease liabilities and long-term operating lease liabilities, respectively, and \$2,685 in corresponding right-of-use ("ROU") lease assets on that date. The difference between the approximate value of the ROU lease assets and lease liabilities is attributable to deferred rent, which is comprised of tenant improvement allowance and rent abatement. The adoption of the new standard also resulted in recording \$187 in current finance lease liabilities and \$182 in corresponding ROU assets for finance leases as of the adoption date. The difference between the finance lease ROU lease assets and lease liabilities is not significant. The cumulative change in the beginning accumulated deficit was \$20 due to the adoption of Topic 842 and there was no material impact on the Company's consolidated statement of operations or consolidated statement of cash flows. The Company's comparative periods continue to be presented and disclosed in accordance with legacy guidance in Topic 840. Refer to Note 8 for additional information.

In August 2020, the FASB issued ASU No. 2020-06, *Debt—Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging—Contracts in Entity's Own Equity (Subtopic 815-40): Accounting for Convertible Instruments and Contracts in an Entity's Own Equity* ("ASU 2020-06"), which simplifies accounting for convertible instruments by removing major separation models required under current U.S. GAAP. The ASU also removes certain settlement conditions that are required for equity-linked contracts to qualify for the derivative scope exception, and it simplifies the diluted earnings per share calculation in certain areas. ASU 2020-06 is applicable for fiscal years beginning after December 15, 2023 or the time at which the Company no longer qualifies as an EGC, with early adoption permitted. The Company elected to early adopt this ASU as of February 1, 2022 using the modified retrospective method. The adoption of ASU 2020-06 had an immaterial impact on the Company's condensed consolidated financial statements and related disclosures for the six-month period ended July 31, 2022.

Segment and Geographic Information

Segments are defined as components of an enterprise for which separate financial information is evaluated regularly by the chief operating decision maker ("CODM"), in deciding how to allocate resources and assess performance. The CODM reviews financial information presented on a consolidated basis for the purposes of allocating resources and evaluating financial performance. Accordingly, management has determined that the Company operates as one operating segment.

The following table presents revenue by geographic location:

	Three Months Ended July 31,		Six Months Ended July 31,	
	2022	2021	2022	2021
United States	\$ 5,735	\$ 5,523	\$ 11,844	\$ 10,985
International	873	553	1,452	1,468
Total	\$ 6,608	\$ 6,076	\$ 13,296	\$ 12,453

Substantially all of the Company's long-lived assets are located in the United States.

2. Revenue

Product, Subscription and Support Revenue

The Company sells a collective defense software solution that provides a near real time collective defense infrastructure that is comprised of two product offerings, IronDefense and IronDome. The software platform is delivered through both on-premises licenses bundled with on-premises hardware and through subscription software.

Our security appliance deliverables include proprietary operating system software and hardware together with regular threat intelligence updates and support, maintenance, and warranty. We combine intelligence dependent hardware and software licenses with the related threat intelligence and support and maintenance as a single performance obligation, as it delivers the essential functionality of our cybersecurity solution. As a result, we recognize revenue for this single performance obligation ratably over the expected term with the customer. Judgment is required for the assessment of material rights relating to renewal options associated with our contracts.

Revenue from subscriptions, which allow customers to use our security software over a contracted period without taking possession of the software, and managed services, where we provide managed detection and response services for customers, is recognized over the contractual term. The cloud-based subscription revenue, where we also provide hosting, recognized for the three months ended July 31, 2022 and 2021 was \$5,203 and \$3,209, respectively, and for the six months ended July 31, 2022 and 2021 were \$10,418 and \$7,086, respectively. Overall product, subscription, and support revenue recognized for the three months ended July 31, 2022 and 2021, were \$6,214 and \$5,770, respectively, and for the six months ended July 31, 2022 and 2021, was \$12,657 and \$11,907, respectively.

Professional Services Revenue

The Company sells professional services, including cyber operations monitoring, security, training and tailored maturity assessments. Revenue derived from these services is recognized as the services are delivered.

Customer Concentration

For the six months ended July 31, 2022, two customers accounted for 23%, or \$2,943, of the Company's revenue, and for the six months ended July 31, 2021, two customers accounted for 22%, or \$2,702, of the Company's revenue. Two customers represented 32% and 49% of the total accounts receivable balance as of July 31, 2022 and January 31, 2022, respectively.

Significant customers are those which represent at least 10% of the Company's total revenue for a period. The following table presents customers that represented 10% or more of the Company's total revenue in the respective periods:

	For the Three Months Ended July 31,		For the Six Months Ended July 31,	
	2022	2021	2022	2021
Customer A	12 %	12 %	11 %	11 %
Customer B	11 %	12 %	11 %	11 %
	<u>23 %</u>	<u>24 %</u>	<u>22 %</u>	<u>22 %</u>

Deferred Costs

Deferred costs consists of deferred contract fulfillment costs and deferred commissions. The Company defers contract fulfillment costs that include appliance hardware. The balances in deferred costs are as follows:

Balance at February 1, 2021	\$	2,805
Amounts recognized in cost of revenue		(616)
Costs deferred		341
Foreign exchange		(4)
Balance at July 31, 2021	<u>\$</u>	<u>2,526</u>
Balance at February 1, 2022	\$	4,604
Amounts recognized in cost of revenue		(6,104)
Costs deferred		5,485
Balance at July 31, 2022	<u>\$</u>	<u>3,985</u>

The balance of deferred commissions at July 31, 2022 and January 31, 2022 were \$2,140 and \$1,238, respectively. Deferred commissions are included in deferred costs on the condensed consolidated balance sheets, of which \$945 is current and \$1,195 is long-term as of July 31, 2022.

Deferred Revenue

Deferred revenue represents amounts received from and/or billed to customers in excess of revenue recognized. Amounts that have been invoiced are recorded in accounts receivable and in deferred revenue or revenue depending on whether the revenue recognition criteria have been met.

The balance in deferred revenue is as follows:

Balance at February 1, 2021		\$	34,044
Revenue recognized			(10,211)
Amounts deferred			9,901
Foreign exchange			(151)
Balance at July 31, 2021		\$	33,583
Balance at February 1, 2022		\$	33,566
Revenue recognized			(13,296)
Amounts deferred			13,809
Balance at July 31, 2022		\$	34,079

Remaining Performance Obligations

As of July 31, 2022, the remaining performance obligations totaled \$44,887. The Company's future recognition of revenue will be as follows:

Years Ending January 31,			
2023 (6 months)		\$	13,493
2024			17,255
2025			11,610
2026			2,529
		\$	44,887

3. Equity

Common Stock

As of July 31, 2022, the Company had 500,000 shares of common stock authorized and 101,649 shares of common stock issued and outstanding with a par value of \$0.0001 per share.

Each share of Common Stock has 1 vote.

Tumim Common Stock Purchase Agreement

On February 11, 2022, the Company entered into a Common Stock Purchase Agreement (the "Purchase Agreement") with Tumim Stone Capital, LLC ("Tumim"), pursuant to which Tumim has committed to purchase up to \$175,000 of common stock (the "Total Commitment"), at the Company's direction from time to time, subject to the satisfaction of the conditions in the Purchase Agreement. Also on February 11, 2022, the Company entered into a registration rights agreement with Tumim (the "Registration Rights Agreement"), pursuant to which the Company filed with the SEC a registration statement to register for resale under the Securities Act (the "ELOC Registration Statement"), the shares of common stock that may be issued to Tumim under the Purchase Agreement. The SEC declared the ELOC Registration Statement effective on March 17, 2022.

The sales of common stock to Tumim under the Purchase Agreement, if any, are subject to certain limitations and may occur, from time to time at the Company's sole discretion, over the approximately 36-month period commencing upon the initial satisfaction of all conditions to Tumim's purchase obligations set forth in the Purchase Agreement (the "Commencement Date").

From and after the Commencement Date, the Company has the right, but not the obligation from time to time to direct Tumim to purchase amounts of common stock, subject to certain limitations in the Purchase Agreement, specified in purchase notices that will be delivered to Tumim under the Purchase Agreement (each such purchase, a "Purchase"). Shares of common stock will be issued from the Company to Tumim at either a (i) 3% discount to the average daily volume weighted average price (the "VWAP") of the common stock during the three consecutive trading days from the date that a purchase notice with respect to a particular purchase (a "VWAP Purchase Notice") is delivered from the Company to Tumim (a "Forward VWAP Purchase"), or (ii) 5% discount to the lowest daily VWAP during the three consecutive trading days from the date that a VWAP Purchase Notice with respect to a particular purchase is delivered from the Company to Tumim (an "Alternative VWAP Purchase"). There is no upper limit on the price per share that Tumim could be obligated to pay for the common stock under the Purchase Agreement. The purchase price per share of common stock to be sold in a Purchase will be appropriately adjusted for any reorganization, recapitalization, non-cash dividend, stock split, reverse stock split or other similar transaction.

Pursuant to the terms of the Purchase Agreement, at the time the Purchase Agreement and the Registration Rights Agreement were signed, the Company paid a cash fee of \$1,750, or 1% of the Total Commitment, to Tumim as consideration for its commitment to purchase shares of the Company's common stock under the Purchase Agreement. The cash paid related to the Commitment Fee was recorded in the condensed consolidated statement of cash flows as a financing activity. This fee will be expensed over the period of the agreement as a component of other expense.

As of July 31, 2022, there have been no purchases of common stock under the Purchase Agreement. Based on the current trading price of the Company's common stock, the Company estimates that it would not be able to raise more than approximately \$20 million in proceeds under the Purchase Agreement before certain of the ownership limitations applicable to Tumim would be exceeded.

Preferred Stock

The Company is authorized to issue 100,000 shares of preferred stock with a par value of \$0.0001 per share with such designation, rights and preferences as may be determined from time to time by the Company's Board of Directors. At July 31, 2022, there were no shares of preferred stock issued or outstanding.

Public Warrants

Public Warrants may only be exercised for a whole number of shares at a price of \$11.50 per share. No fractional shares will be issued upon exercise of the Public Warrants. The Public Warrants became exercisable in September 2021 and expire in August 2026 or earlier upon redemption or liquidation.

The Company may redeem the Public Warrants:

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon not less than 30 days' prior written notice of redemption; and

*if, and only if, the reported last sale price of the Company's common stock equals or exceeds \$18.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like and subject to adjustment as described below) for any 20 trading days within a 30-trading day period ending on the third business day prior to the notice of redemption to the warrant holders.

If the Company calls the Public Warrants for redemption, management will have the option to require all holders that wish to exercise the Public Warrants to do so on a "cashless basis," as described in the Warrant Agreement.

As of July 31, 2022, the Company had 8,596 Public Warrants outstanding and not exercised.

4. Stock Incentive Plan

Legacy IronNet's Board of Directors adopted, and its stockholders approved Legacy IronNet's 2014 Stock Incentive Plan (the "2014 Plan") on September 29, 2014, and on October 17, 2014, respectively. The 2014 Plan was periodically amended, most recently on June 7, 2019. The 2014 Plan permitted the grant of incentive stock options ("ISOs"), non-qualified stock options ("NSOs"), stock appreciation rights, restricted stock, restricted stock units ("RSUs"), and other stock-based awards. ISOs were only able to be granted to Legacy IronNet's employees and to Legacy IronNet's subsidiary corporations' employees. All other awards could be granted to employees, directors and consultants of Legacy IronNet and to any of Legacy IronNet's parent or subsidiary corporation's employees or consultants. As of August 26, 2021, the closing date of the Merger, no additional awards will be granted under the 2014 Plan. The terms of the 2014 Plan will continue to govern the terms of outstanding equity awards that were granted prior to the closing date.

On August 26, 2021, per the Merger Agreement, the outstanding Legacy IronNet ISO and RSU grants issued under the 2014 Plan were converted to their post-transaction equivalents based on the conversion ratio, totaling 18,972 shares in the Company when exercised or converted.

The 2021 Equity Incentive Plan (the "2021 Plan") was approved by Legacy LGL's board of directors and by its stockholders on August 26, 2021. Under the 2021 Plan, upon its effectiveness, the Company was able to grant ISOs, RSUs and other equity securities to acquire, to convert into, or to receive up to 13,500 shares of common stock. The terms of the 2021 Plan include an evergreen provision that provides for an automatic share increase on February 1 of each year, in an amount equal to 5.0% of the sum of (a) the total number of shares of the Company's common stock outstanding on January 31 of the immediately preceding fiscal year, plus (b) the number of shares of common stock reserved for issuance under the 2021 Plan as of January 31 of the immediately preceding fiscal year, but which have not yet been issued. In accordance with the evergreen provision, on February 1, 2022, the number of shares that can be issued under the 2021 Plan increased by 4,934 shares, with a new limit following the increase of 18,434 shares.

As of July 31, 2022, 7,290 shares remained available to issue under the 2021 Plan.

Awards under the 2014 Plan and the 2021 Plan (together, the "Stock Incentive Plans") normally vest over a forty-eight month period, some of which have a first year cliff vest for the first 25% of their vesting, during which time no vesting occurs. In limited cases, vesting as short as twelve months with no cliff, vesting based on performance criteria and acceleration under certain events have also been permitted; however, such exceptions apply to less than 20% of the shares underlying awards currently outstanding under the Stock Incentive Plans.

Stock Options

The exercise price of each ISO granted under the Stock Incentive Plans may not be less than the fair market value per share of the underlying common stock on the date of grant. The Board of Directors establishes the term and the vesting of all options issued under the Stock Incentive Plans; however, in no event will the term exceed ten years.

Presented below is a summary of stock options under the 2014 Stock Incentive Plan, as no stock options have been granted under the 2021 Plan:

	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (Years)	Intrinsic Value of Outstanding Options
Outstanding at February 1, 2022	1,317	\$ 0.55	4.9	\$ 3,773
Granted	-	-	-	-
Exercised	(396)	\$ 0.52	4.4	675
Forfeited or expired	(17)	\$ 0.54	3.7	-
Outstanding at July 31, 2022	<u>904</u>	<u>\$ 0.56</u>	<u>4.4</u>	<u>\$ 1,502</u>
Exercisable at July 31, 2022	<u>904</u>	<u>\$ 0.56</u>	<u>4.4</u>	<u>\$ 1,502</u>

For the three months ended July 31, 2022 and 2021, the Company recorded no compensation cost and \$10 of compensation cost related to stock options, respectively. For the six months ended July 31, 2022 and 2021, the Company recorded an insignificant amount and \$27 of compensation cost related to stock options, respectively. The fair value of the shares under stock options granted that vested during the six month periods ended July 31, 2022 and 2021 totaled \$719 and \$985, respectively.

Stock compensation expense for stock options is recognized on a straight line basis and with a provision for forfeitures matched to historical experience for matured grant cohorts. At July 31, 2022, there was no unrecognized compensation cost related to unvested stock options.

The Company uses the Black-Scholes option pricing model to estimate the fair value of options granted. The Black-Scholes model takes into account the fair value of an ordinary share and the contractual and expected term of the stock option, expected volatility, dividend yield, and risk-free interest rate. Prior to becoming a public company, the fair value of the Company's common stock was determined utilizing an external third-party pricing specialist.

Restricted Stock Units

In addition to the applicable time or performance-based vesting criteria, the RSUs granted under the 2014 Plan contained an additional vesting requirement that required the occurrence of a liquidity event. On August 26, 2021, the date of the Merger, the Board of Directors resolved that the Merger constituted a liquidity event, which triggered the liquidity event criteria for vesting under then outstanding RSU awards.

As the closing of the Merger represented the satisfaction of the liquidity event vesting requirement for outstanding RSUs, and vesting was not probable until that time, all RSUs issued prior to the completion of the Merger were re-valued at the date of the Merger using the closing share price on that date. All RSUs were assigned a fair value of \$12.85. Subsequent to the closing of the Merger, the fair value of RSUs is based on the fair value of the Company's common stock on the date of the grant or any further modification.

Presented below is a summary of the status of outstanding RSUs:

	Number of Shares	Weighted Average Grant Date Fair Value
Non-vested at February 1, 2022	10,310	\$ 9.57
Granted	8,394	3.57
Vested	(2,817)	10.92
Forfeited or expired	(1,495)	8.06
Non-vested at July 31, 2022	14,392	\$ 5.19

For the three months ended July 31, 2022, the Company recorded \$7,121 of stock-based compensation expense, net of actual forfeitures, related to RSUs, of which \$4,358 is associated with RSUs on a graded vesting schedule and \$2,763 is associated with RSUs on a straight-line vesting schedule. For the six months ended July 31, 2022, the Company recorded \$18,562 of stock-based compensation expense, net of actual forfeitures, related to RSUs, of which \$12,946 is associated with RSUs on a graded vesting schedule and \$5,616 is associated with RSUs on a straight-line vesting schedule. No stock-based compensation was recognized associated with RSUs in the three or six months ended July 31, 2021.

Stock compensation expense for RSUs granted under the 2014 Plan, which contain both service and performance conditions, is recognized on a graded-scale basis, recognizing expense over the respective vesting period for each tranche of shares under each award granted. Stock compensation expense for RSUs granted under the 2021 Plan have only service vesting conditions and expense will be recognized on a straight-line basis for all RSU awards with only service conditions. In the event that an RSU holder is terminated before the award is fully vested for RSUs granted under either Plan, the full amount of the unvested portion of the award will be recognized as a forfeiture in the period of termination.

The Company's default tax withholding method for RSUs is the sell-to-cover method, under which shares with a market value equivalent to the tax withholding obligation are sold on behalf of the holder of the RSUs upon vesting and settlement to cover the tax withholding liability and the cash proceeds from such sales are then remitted by the Company to taxing authorities.

As of July 31, 2022, there was \$48,450 of unrecognized compensation cost related to unvested RSUs without performance obligations. The weighted average remaining vesting period was 3.25 years.

Employee Stock Purchase Plan ("ESPP")

In August 2021, Legacy LGL's Board of Directors adopted, and its stockholders approved, the ESPP. The ESPP became effective immediately upon the Closing of the Merger.

The purpose of the ESPP is to provide a means by which our eligible employees and certain designated companies may be given an opportunity to purchase shares of our common stock, to assist us in retaining the services of eligible employees, to secure and retain the services of new employees and to provide incentives for such persons to exert maximum efforts for our success.

The Plan includes two components: a 423 Component and a Non-423 Component. We intend that the 423 Component will qualify as options issued under an "employee stock purchase plan" as that term is defined in Section 423(b) of the Code. Except as otherwise provided in the ESPP or determined by our board of directors, the Non-423 Component will operate and be administered in the same manner as the 423 Component.

The ESPP contains an evergreen provision that provides for an automatic annual share increase on February 1 of each year, in an amount equal to the lesser of (i) 1% of the total number of shares of common stock outstanding on January 31st of the preceding fiscal year, and (ii) 2,700 shares of Common Stock. In accordance with the evergreen provision, the number of shares of common stock reserved for issuance under the ESPP increased by 889 shares on February 1, 2022. Inclusive of the prior limit of 2,700 shares, the new limit following the increase was 3,589 shares.

As of July 31, 2022, there were no purchases of shares for any eligible employee.

5. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset in an orderly transaction or paid to settle a liability in an orderly transaction between market participants at the measurement date. Accounting standards utilize a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three levels, which are described below:

Level 1 – Quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2 – Observable inputs other than quoted prices that are either directly or indirectly observable for the asset or liability.

Level 3 – Unobservable inputs that are supported by little or no market activity.

These levels are not necessarily an indication of the risk of liquidity associated with the financial assets or liabilities disclosed. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement, as required under ASC 820-10 "Fair Value Measurement."

The Company's Private Warrants have similar terms and are subject to substantially the same redemption features as the Public Warrants, as the transfer of a Private Warrant to anyone who is not a permitted transferee would result in the Private Warrant being converted to a Public Warrant. The Company determined that the fair value of each Private Warrant is equivalent to that of a Public Warrant. There have been observable transactions in the Company's Public Warrants and the Public Warrants had adequate trading volume between independent investors on the public market to provide a reliable indication of value. As of July 31, 2022, the fair value of the Private Warrants was equal to that of the Public Warrants as they had substantially the same terms. However, as they are not actively traded, they are listed as a Level 2 in the fair value hierarchy table below.

Investments with an original maturity of three months or less at the date of purchase are considered cash equivalents, while all other investments are classified as short-term or long-term based on their maturities and their availability for use in current operations.

The following table presents our assets measured at fair value on a recurring basis:

	July 31, 2022				January 31, 2022			
	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3	Total
Assets								
Cash equivalents	\$ 102	\$ —	\$ —	\$ 102	\$ 102	\$ —	\$ —	\$ 102
Total financial assets	\$ 102	\$ —	\$ —	\$ 102	\$ 102	\$ —	\$ —	\$ 102
Liabilities								
Warrants	—	4	—	4	—	7	—	7
Total financial liabilities	\$ —	\$ 4	\$ —	\$ 4	\$ —	\$ 7	\$ —	\$ 7

6. Supplemental Balance Sheet Information

Accrued Expenses

Accrued expenses consisted of the following:

	July 31, 2022		January 31, 2022
Accrued expenses	\$	1,817	\$ 2,438
Taxes payable on behalf of employees related to vested RSUs		6,481	-
Unvouched payables		2,464	2,271
	\$	10,762	\$ 4,709

The increase in accrued expenses is primarily comprised of the cash proceeds from the sale of shares on behalf of the holders of vested RSUs to cover the associated tax withholding liability under the sell-to-cover method, which will be remitted by the Company to the appropriate taxing authorities.

7. Commitments and Contingencies

Contingencies

In the ordinary course of business, the Company and its subsidiaries may become defendants in certain shareholder claims and other litigation. The Company records a liability when it is probable that a loss has been incurred and the amount is reasonably estimable. To date, no such liability has been recorded.

8. Leases

The Company leases certain office space and equipment and determines if an arrangement is a lease at inception. ROU assets for operating leases are included in the deposits and other assets caption and ROU assets associated with finance leases are included within the property and equipment, net caption of the condensed consolidated balance sheet. The current portions of operating and finance lease liabilities are included in the other current liabilities caption and the long-term portion of operating lease liabilities is presented in the other long-term liabilities payable caption of the condensed consolidated balance sheet.

ROU assets represent the Company's right to use an underlying asset for the lease term and lease liabilities represent its obligation to make lease payments arising from the lease. ROU assets and liabilities are recognized at the lease commencement date based on the estimated present value of lease payments over the lease term. The ROU asset is adjusted for any lease payments made and excludes lease incentives and initial direct costs incurred. If the leases do not provide an implicit rate, the Company uses an incremental borrowing rate based on the information available at the lease commencement date in determining the present value of lease payments. The incremental borrowing rate is determined using a portfolio approach based on the rate of interest that the Company would pay to borrow an amount equal to the lease payments on a collateralized basis over a similar term. The Company uses quoted interest rates obtained from financial institutions as an input to derive its incremental borrowing rate as the discount rate for the lease. Leases with an initial term of 12 months or less are not recorded on the balance sheet, and the Company recognizes lease expense for these leases on a straight-line basis over the lease term. For lease agreements entered into or reassessed after the adoption of Topic 842, the Company combines lease and non-lease components.

The Company leases office space under the terms of noncancelable operating leases that expire at various dates through November 2026. Certain operating lease agreements provide for an annual 2.75% escalation of the base rent. The Company is also responsible for operating expenses, which are classified as variable lease costs. Lease terms may include options to extend or terminate the lease, typically at the Company's own discretion. Renewal options are regularly evaluated and the renewal period will be included in the lease term when exercise of the renewal option is considered reasonably certain. There are no active leases that have a renewal option that is reasonably certain of being exercised.

The Company holds leases that include both lease (e.g., payments including rent, taxes, and insurance costs) and non-lease components (e.g., common-area or other maintenance costs). As the Company has elected the practical expedient to group lease and non-lease components for all leases, these are accounted for as a single lease component. The Company's leases do not include any residual value guarantees or material restrictive covenants.

Lease expense for both operating and finance leases is recognized on a straight-line basis over the lease term and is recorded in operating expenses on the condensed consolidated statements of operations. Interest expense incurred on finance lease liabilities is calculated using the effective interest method and is recorded in interest expense on the condensed consolidated statements of operations.

In March 2022, the Company entered into a lease agreement to lease certain computer and technology equipment, which has not commenced. Upon commencement, we do not believe the ROU asset will be material. The Company does not have control over the construction or design of these assets.

The lease balances are located in the following positions on the condensed consolidated balance sheet:

	Balance Sheet Location		July 31, 2022
Assets			
Operating		Deposits and other assets	\$ 2,197
Financing		Property and equipment, net	136
Liabilities			
Current			
Operating		Other current liabilities	\$ 689
Financing		Other current liabilities	93
Non-current			
Operating		Other long-term liabilities	2,355
Financing			-

Total lease costs for the three and six months ended July 31, 2022 were:

	Three Months Ended July 31, 2022		Six Months Ended July 31, 2022	
Operating lease cost	\$	239	\$	605
Short-term lease cost		641		1,183
Variable lease cost		(4)		44
Finance lease cost:				
Amortization of right-of-use assets		23		45
Interest on lease liabilities		1		3
Total finance lease cost	\$	24	\$	48

The following table summarizes future scheduled lease payments as of July 31, 2022:

	Operating Leases		Finance Leases	
Remaining six months of fiscal 2023	\$	479	\$	—
2024		755		96
2025		775		-
2026		797		-
2027		658		-
Total		3,464		96
Less: Imputed Interest		420		3
Present value of net lease payments	\$	3,044	\$	93
Lease liability, current portion	\$	689	\$	93
Lease liability, net of current portion		2,355		-
Total lease liability	\$	3,044	\$	93

Supplemental information and non-cash activities related to operating and finance leases are as follows:

Cash paid for amounts included in the measurement of lease liabilities			
Operating cash flows from operating leases		\$	699
Operating cash flows from finance leases			3
Financing cash flows from finance leases			96
		\$	798
Weighted average remaining lease term (in years)			
Operating leases			4.19
Finance leases			1.50
Weighted average discount rate			
Operating leases			6.30 %
Finance leases			5.67 %

Disclosures Related to Periods Prior to Adoption of the New Lease Standard

The Company recorded rent expense of \$297 and \$592 for the three and six months ended July 31, 2021, respectively.

The minimum aggregate future obligations under noncancelable operating leases as of January 31, 2022 were as follows:

Year ending January 31,			
2023		\$	1,025
2024			755
2025			775
2026			797
2027			658
		\$	4,010

As the Company did not hold finance leases as of January 31, 2022, there were no future minimum lease payments under finance leases at that time.

9. Income Taxes

The income tax provision for interim periods is determined using an estimate of the Company's annual effective tax rate as adjusted for discrete items arising in that quarter. The effective income tax rate was (0.01)% for the six months ended July 31, 2022 and (0.1)% for the six months ended July 31, 2021. The effective tax rate differs from the U.S. statutory rate primarily due to the full valuation allowances on the Company's net domestic deferred tax assets and impact of foreign tax rate differential.

10. Related Party Transactions

Product, subscription and support revenue from Related Parties

Certain investors and companies who the Company is affiliated with purchased product, subscription and support revenue during the periods presented. The Company recognized \$210 and \$436 of revenue from contracts with related parties for the three months ended July 31, 2022 and 2021, respectively. The Company recognized \$737 and \$872 of revenue from contracts with related parties for the six months ended July 31, 2022 and 2021, respectively. The corresponding receivable was \$3,233 as of each of July 31, 2022 and January 31, 2022. Of the corresponding receivable balance as of July 31, 2022, \$1,950 has been subsequently collected.

11. Net Loss Per Share Attributable to Common Stockholders

Net Loss per common share

The Company computes basic earnings per share (EPS) by dividing income (loss) available to common stockholders by the weighted average number of common shares outstanding for the reporting period. Diluted EPS reflects the effect of potential shares that would be issued if stock option awards, RSUs, warrants, and preferred shares, to the extent issued, were converted into common stock, to the extent dilutive.

The following table summarizes the computation of basic and diluted net loss per share attributable to common stockholders:

	Three Months Ended July 31,		Six Months Ended July 31,	
	2022	2021	2022	2021
Numerator: Net loss	\$ (28,415)	\$ (17,167)	\$ (61,584)	\$ (32,667)
Denominator: Basic and Diluted Weighted-average shares in computing net loss per share attributable to common stockholders	101,352	67,421	100,346	67,303
Net loss attributable to common stockholders—basic and diluted	<u>\$ (0.28)</u>	<u>\$ (0.25)</u>	<u>\$ (0.61)</u>	<u>\$ (0.49)</u>

Since the Company was in a net loss position for all periods presented, diluted net loss per share attributable to common stockholders will be the same as the basic net loss per share, as, in a net loss position, the inclusion of all potential common shares outstanding would be antidilutive. The potential shares of common stock excluded from the computation of diluted net loss per share for the periods presented due to their antidilutive impacts are as follows:

	As of July 31, 2022	As of July 31, 2021
Shares of common stock issuable from stock options	—	1,498
Unvested RSUs	14,382	17,576
Shares of common stock issuable upon conversion from preferred shares	—	22,832
Warrants	8,606	—
Potential common shares excluded from diluted net loss per share	<u>22,988</u>	<u>41,906</u>

There were no Legacy IronNet Warrants outstanding as of July 31, 2021 due to the fact that the Legacy LGL interim condensed consolidated balance sheet was consolidated and combined with Legacy IronNet as of the effective date of the Merger in August 2021.

12. Deferred Payroll Taxes

In fiscal year 2021, Legacy IronNet elected to defer the Company's portion of payroll taxes, as permitted under the CARES Act. 50% of the deferred balance was paid in December 2021, with the remaining 50% due on December 31, 2022. The balance of the payroll tax deferral is \$689 as of July 31, 2022 and is included in other current liabilities on the condensed consolidated balance sheet.

13. Retirement Plans

We provide a retirement savings plan for the benefit of our employees, including our executive officers. The plan is intended to qualify as a tax-qualified 401(k) plan so that contributions, and income earned on such contributions, are not taxable to participants until withdrawn or distributed from the plan (except in the case of contributions under the 401(k) plan designated as Roth contributions). The 401(k) plan provides that each participant may contribute up to an annual statutory limit. Participants who are at least 50 years old can also contribute additional amounts based on statutory limits for "catch-up" contributions. Under the plan, each employee is fully vested in his or her deferred salary contributions. Employee contributions are held and invested by the plan's trustee as directed by participants. We also fully match employee contributions up to the first 4% of salary, which amounts are fully vested.

14. Subsequent Events

Convertible Note Financing with 3i

On September 14, 2022, the Company entered into a securities purchase agreement (the "Securities Purchase Agreement") with 3i pursuant to which the Company will issue to 3i an unsecured convertible promissory note for gross proceeds of \$10,000. The Company expects to receive this debt funding on or before September 16, 2022, subject to the satisfaction of customary closing conditions. The initial promissory note will have a principal balance of \$10,300 and will have an 18-month term. Outstanding principal amounts will accrue interest at a rate of 5% per year. Beginning on the first day of the calendar month after 90 days have elapsed from the issuance of the initial promissory note, the Company will be obligated to make 15 monthly installment payments of principal and accrued interest. Subject to conditions and limitations set forth in the securities purchase agreement, each of the Company and 3i may elect to convert outstanding principal and interest payments into shares of the Company's common stock. Subject to a number of conditions set forth in the securities purchase agreement with 3i, including specified minimum trading prices and trading volumes, and the repayment or conversion of a specified portion of the initial convertible promissory note, the Company may borrow an additional \$15,000 from 3i on the same terms and conditions as will be set forth in the initial convertible promissory note.

On September 14, 2022, the Company also entered into a registration rights agreement with 3i (the "Registration Rights Agreement") pursuant to which it has committed to file with the SEC a registration statement to register for resale under the Securities Act the shares of common stock that may be issued to 3i upon conversion of principal and interest amounts due on the promissory notes that may be issued pursuant to the Securities Purchase Agreement.

Restructuring

On September 14, 2022, the Company announced that it plans to undertake a restructuring that will include a reduction to its current headcount of approximately 250 employees by approximately 35%. The Company expects to incur charges of approximately \$1,000 in connection with the restructuring during the quarterly period ending October 31, 2022, primarily associated with one-time severance payments.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Unless otherwise indicated or the context otherwise requires, references in this section to "IronNet," "we," "us," "our," "the Company" and other similar terms refer to IronNet, Inc. and its subsidiaries after giving effect to the Merger.

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our condensed consolidated financial statements and related notes appearing elsewhere in this Quarterly Report on Form 10-Q ("Quarterly Report"), and the annual consolidated financial statements for the year ended January 31, 2022 and related notes included in our Annual Report on Form 10-K filed on May 2, 2022 (the "Annual Report"). The interim condensed consolidated financial statements in this Quarterly Report are presented in U.S. dollars rounded to the nearest thousand, with the amounts in this Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") rounded to the nearest tenth of a million. Therefore, differences in the tables between totals and sums of the amounts listed may occur due to such rounding.

This Quarterly Report contains statements that may constitute "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), that involve substantial risks and uncertainties. All statements contained in this Quarterly Report other than statements of historical fact, including statements regarding our future results of operations and financial position, our business strategy and plans, and our objectives for future operations, are forward-looking statements. The words "believes," "expects," "intends," "estimates," "projects," "anticipates," "will," "plan," "design," "may," "should," or similar language are intended to identify forward-looking statements.

It is routine for our internal projections and expectations to change throughout the year, and any forward-looking statements based upon these projections or expectations may change prior to the end of the next quarter or year. Readers of this Quarterly Report are cautioned not to place undue reliance on any such forward-looking statements. As a result of a number of known and unknown risks and uncertainties, our actual results or performance may be materially different from those expressed or implied by these forward-looking statements. Factors that could cause or contribute to these differences include those discussed below and in the Annual Report under the captions "Cautionary Note Regarding Forward-Looking Statements" and "Risk Factors." The impact of COVID-19 and its variants, as well as geopolitical tensions, such as Russia's recent incursion into Ukraine, may also exacerbate these risks, any of which could have a material effect on us. All forward-looking statements included herein are made only as of the date hereof. Our fiscal year end is January 31, and our fiscal quarters end on April 30, July 31, October 31, and January 31. Our fiscal years ending January 31, 2023 and ended January 31, 2022 are referred to herein as "fiscal 2023" and "fiscal 2022," respectively.

Overview

GEN. Keith B. Alexander (Ret.) founded our company in 2014 to solve the major cybersecurity problem he witnessed and defined during his tenure as former head of the NSA and founding Commander of U.S. Cyber Command: You can't defend against threats you can't see. Our innovative approach provides the ability for groups of organizations—within an industry sector, supply chain, state or country, for example—to see, detect and defend against sophisticated cyber attacks earlier and faster than ever before.

IronNet has defined a new market category called Collective Defense. IronNet has developed the Collective Defense platform, a solution that can identify anomalous (potentially suspicious or malicious) behaviors on computer networks and share this intelligence anonymously and in real time among Collective Defense community members. Collective Defense communities comprise groups of organizations that have common risks, such as a supply chain, a business ecosystem, or across an industry sector, a state, or a country. This cybersecurity model delivers timely, actionable, and contextual alerts and threat intelligence on attacks targeting enterprise networks, and functions as an early-warning detection system for all community members.

This new platform addresses a large and unwavering compound problem: limited threat visibility for increasingly borderless enterprises across sectors and at the national level, paired with ineffective threat knowledge sharing across companies and sectors and a "go it alone" approach to cybersecurity. These operational gaps, combined with market dynamics like the increased velocity of sophisticated cyber attacks and the deepening scarcity of qualified human capital, have set our mission to transform how cybersecurity is waged.

Our Business

We have focused on the development and delivery of a suite of advanced cybersecurity capabilities for detection, alerting, situational awareness and hunt/remediation combined into a comprehensive Collective Defense platform. We complement these capabilities, delivered to both commercial and public sector enterprises, with professional services.

Product, Subscription and Support Revenue

Our primary line of business is the delivery of integrated software capabilities through our Collective Defense platform. The platform is comprised of two flagship products:

IronDefense is an advanced Network Detection Response ("NDR") solution that uses AI-driven behavioral analytics to detect and prioritize anomalous activity inside individual enterprises. IronNet leverages advanced AI/ML algorithms to detect previously unknown threats, which are those that have not been identified and "fingerprinted" by industry researchers), in addition to screening known threats, and applies its Expert System to prioritize the severity of the behaviors—all at machine speed and cloud scale.

IronDome is a threat-sharing solution that facilitates a crowdsourcing-like environment in which the IronDefense threat detections from an individual company are shared among members of a Collective Defense community, consisting of our customers who have elected to permit their information to be anonymously shared and cross-correlated by our IronDome systems. IronDome analyzes threat detections across the community to identify broad attack patterns and provides anonymized intelligence back to all community members in real time, giving all members early insight into potential incoming attacks. Automated sharing across the Collective Defense community enables faster detection of attacks at earlier stages.

Our Collective Defense platform is designed to deliver strong network effects. Every customer contributing its threat data (anonymously) into the community is able to reap benefits from the shared intelligence of the other organizations. The collaborative aspect of Collective Defense, and the resulting prioritization of alerts based on their potential severity, helps address the known problem of "alert fatigue" that plagues overwhelmed security analysts.

Our Collective Defense platform is largely cloud-deployed (public or private), though it is also available in on-premise and hybrid environments, and is scalable to include small-to-medium businesses and public-sector agencies as well as multinational corporations. We provide professional cybersecurity services such as incident response and threat hunting, as well as programs to help customers assess cybersecurity governance, maturity, and readiness. Our cybersecurity services are designed to create shared long-term success measures with our customers, differentiating us from other cybersecurity vendors by working alongside customers as partners and offering consultative and service capabilities beyond implementation.

Our Collective Defense platform is a subscription-based pricing and flexible delivery model, with 82.3% of our revenue for the six months ended July 31, 2022 related to deployments involving our key public cloud providers Amazon Web Services and Microsoft Azure. We also support private cloud, or HCI such as Nutanix as well as on-premise environments through hardware and virtual options. To make it as easy as possible for customers to add Collective Defense into

their existing security stack, we have built a rich set of APIs that enable integrations with standard security products, including SIEM, SOAR, EDR, NGFW tools, and cloud-native logs from the major public cloud providers.

Professional Services

We sell professional services, including development of national cybersecurity strategies, cyber operations monitoring, security, training, red team, incident response and tailored maturity assessments. Revenue derived from these services is recognized as the services are delivered.

Financing to Date

Historically, we have financed our operations primarily through private placements of common stock, warrants and redeemable convertible preferred stock.

In connection with the execution of the Merger Agreement, a number of purchasers (each, a "Subscriber") purchased an aggregate of 12,500,000 shares of our common stock (the "PIPE Shares"), for a purchase price of \$10.00 per share and an aggregate purchase price of \$125.0 million. As a result of the Merger, we also received \$13.3 million held in Legacy LGL's trust account from proceeds related to public trust shares, net of stockholder redemptions. Transaction costs related to the issuance of the trust shares were \$9.0 million.

During the six months ended July 31, 2022, we incurred a net loss of \$61.6 million, of which \$18.6 million related to non-cash expense related to stock-based compensation, and used \$41.7 million in cash to fund our operations. As of July 31, 2022, we had \$9.7 million of cash on hand to continue to fund our operations.

Key Business Metrics

We monitor the following key metrics to measure our performance, identify trends, formulate business plans and make strategic decisions.

Recurring Software Customers

We believe that our ability to increase the number of subscription and other recurring contract type customers on our platform is an indicator of our market penetration, the growth of our business, and our potential future business opportunities. We have a history of growing the number of customers who have contracted for our platforms on a recurring basis, which does not include our professional services customers. Our recurring software customers include customers who have a recurring contract for either or both of our IronDefense and IronDome platforms. These platforms are generally sold together, but they also can be purchased on a standalone basis. The following table sets forth the number of recurring software customers as of the dates presented:

	2022	July 31, 2021
Recurring Software Customers	78	51
Year-over-year growth	77 %	132 %

Annual Recurring Revenue ("ARR")

ARR is calculated at a particular measurement date as the annualized value of our then existing customer subscription contracts and the portions of other software and product contracts that are to be recognized over the course of the contracts and that are designed to renew, assuming any contract that expires during the 12 months following the measurement date is renewed on its existing terms. The following table sets forth our ARR as of the dates presented:

	2022	July 31, 2021
Annual recurring revenue	\$ 26.5	\$ 24.1
Year-over-year growth	10 %	24 %

(\$ in millions)

Because we have contracts from government entities whose back to back renewal may be delayed due to the availability of funding between budget and authorization cycles, potential changes in contract vehicles, and increased requirements, ARR may temporarily decline in periods during which these interruptions are active across reporting period ends. During the six months ended July 31, 2022, \$4.2 million of ARR from such temporary interruptions adversely affected the ending ARR of \$26.5 million and the annual year over year increase of 4%. Had those contracts renewed without interruption, we would have reported an ARR of \$30.7 million as of July 31, 2022 and an increase of 27% from the prior year.

Dollar-Based Average Contract Length

Our dollar-based average contract length is calculated from a set of customers against the same metric as of a prior period end. Because many of our customers have similar buying patterns and the average term of our contracts is more than 12 months, this metric provides a means of assessing the degree of built-in revenue repetition that exists across our customer base.

We calculate our dollar-based average contract length as follows:

- a. Numerator: We multiply the average total length of the contracts, measured in years or fractions thereof, by the respective revenue recognized for the six months ended July 31, 2022 and 2021, as applicable.
- b. Denominator: We use the revenue attributable to software and product customers for the six months ended July 31, 2022 and 2021 in the numerator. This effectively represents the revenue base that is being generated by those customers.

Dollar-based average contract length is obtained by dividing the Numerator by the Denominator. Our dollar-based average contract length increased from 2.8 to 3.2 years, or 14%, as of July 31, 2022 as compared to the end of the same period in fiscal 2022. The re-emergence of longer term contracts in our average has led to the increase in our average contract length as of the end of the most recent reporting period.

	2022	Six Months Ended July 31, 2021
Dollar-based average contract length	3.2	2.8

(in years)

Calculated Billings

Calculated billings is a non-GAAP financial measure that we believe is a key metric to measure our periodic performance. Calculated billings represent our total revenue plus the change in deferred revenue in a period. Calculated billings in any particular period aims to reflect amounts invoiced to customers to access our software-based, cybersecurity analytics products, cloud platform and professional services, together with related support services, for our new and existing customers. We typically invoice our customers on multi-year or annual contracts in advance, either annually or monthly.

Calculated billings increased by \$1.8 million, or 13%, for the six months ended July 31, 2022 as compared to the same period in fiscal 2022, and decreased by \$1.3 million, or 59%, for the three months ended July 31, 2022 as compared to the same period in fiscal 2022. We expect that calculated billings will be affected by timing of entering into agreements with customers and the mix of billings in each reporting period as we typically invoice customers multi-year or annually in advance and, to a lesser extent, monthly in advance.

While we believe that calculated billings may be helpful to investors because it provides insight into the cash that will be generated from sales of our subscriptions, this metric may vary from period-to-period for a number of reasons, and therefore has a number of limitations as a quarter-to-quarter or year-over-year comparative measure. In addition, other companies, including companies in our industry, may calculate similarly-titled non-GAAP measures differently or may use other measures to evaluate their performance, all of which could reduce the usefulness of our metric of calculated billings as a tool for comparison. Because of these and other limitations, you should consider calculated billings along with revenue and our other GAAP financial results.

The following table presents a reconciliation of revenue, the most directly comparable financial measure calculated in accordance with GAAP, to calculated billings:

	Three Months Ended July 31,		2022 vs 2021	
	2022	2021		
	(in millions)			
Revenue	\$ 6.6	\$ 6.1	0.5	8 %
Add: Total Deferred revenue, end of period	34.1	33.6	0.5	1 %
Less: Total Deferred revenue, beginning of period	38.5	36.2	2.3	6 %
Calculated billings	\$ 2.2	\$ 3.5	(1.3)	(59) %

	Six Months Ended July 31,		2022 vs 2021	
	2022	2021		
	(in millions)			
Revenue	\$ 13.3	\$ 12.5	0.9	6 %
Add: Total Deferred revenue, end of period	34.1	33.6	0.5	1 %
Less: Total Deferred revenue, beginning of period	33.6	34.0	(0.4)	(1) %
Calculated billings	\$ 13.8	\$ 12.1	1.8	13 %

Components of Our Results of Operations

Revenue

Our revenues are derived from sales of product, subscriptions, subscription-like software products and software support contracts as well as from professional services. Product, subscription and support revenues accounted for 94% our revenue in the three months ended July 31, 2022, 95% of our revenue in the same period in fiscal 2022, 95% of our revenue in the six months ended July 31, 2022, and 96% of our revenue in the same period in fiscal 2022. Professional services revenues accounted for 6% our revenue in the three months ended July 31, 2022, 5% of our revenue in the same period in fiscal 2022, 5% our revenue in the six months ended July 31, 2022, and 4% of our revenue in the same period in fiscal 2022.

Our typical customer contracts and subscriptions range from one to five years. We typically invoice customers annually, in advance. We combine intelligence dependent hardware and software licenses as well as subscription-type deliverables with the related threat intelligence and support and maintenance as a single performance obligation, as it delivers the essential functionality of our cybersecurity solution. Most companies also participate in the IronDome collective defense software solution that provides them access to our collective defense infrastructure linking participating stakeholders. As a result, we recognize revenue for this single performance obligation ratably over the expected term with the customer. Amounts that have been invoiced are recorded in deferred revenue or they are recorded in revenue if the revenue recognition criteria have been met. Judgment is required for the assessment of material rights relating to renewal options associated with our contracts.

Professional services revenues are generally sold separately from our products and include services such as development of national cyber security strategies, cyber operations monitoring, security, training, red team, incident response and tailored maturity assessments. Revenue derived from these services is recognized as the services are delivered.

Cost of Revenue

Cost of product, subscription and support revenue includes expenses related to our hosted security software, employee-related costs of our customer facing support, such as salaries, bonuses and benefits, an allocated portion of administrative costs and the amortization of deferred costs.

Cost of professional services revenue consists primarily of employee-related costs, such as salaries, bonuses and benefits, cost of contractors and an allocated portion of administrative costs.

Gross Profit

Gross profit, calculated as total revenue less total costs of revenue is affected by various factors, including the timing of our acquisition of new customers, renewals from existing customers, the data center and bandwidth costs associated with operating our cloud platform, the extent to which we expand our customer support organization, and the extent to which we can increase the efficiency of our technology and infrastructure through technological improvements. Also, we view our professional services in the context of our larger business and as a lead generator for potential future product sales. Because of these factors, our services revenue and gross profit may fluctuate over time.

Operating Expenses

Research and development

Our research and development efforts are aimed at continuing to develop and refine our products, including adding new features and modules, increasing their functionality, and enhancing the usability of our platform. Research and development costs primarily include personnel-related costs and acquired software costs. Research and development costs are expensed as incurred.

Sales and marketing

Sales and marketing expenses consist primarily of employee compensation and related expenses, including salaries, bonuses and benefits for our sales and marketing employees, sales commissions that are recognized as expenses over the period of benefit, marketing programs, travel and entertainment expenses, and allocated overhead costs. We capitalize our sales commissions and recognize them as expenses over the estimated period of benefit.

General and administrative

General and administrative costs include salaries, stock-based compensation expenses, and benefits for personnel involved in our executive, finance, legal, people and culture, and administrative functions, as well as third-party professional services and fees, and overhead expenses.

Other income

Other income consists primarily of interest income.

Other expense

Other expense consists primarily of interest expense and foreign currency losses.

Provision for income taxes

Provision for income taxes consists of federal and state income taxes in the United States and income taxes and withholding taxes in certain foreign jurisdictions in which we conduct business. We maintain a full valuation allowance on our U.S. federal and state deferred tax assets.

Results of Operations

Comparison of the Three Months Ended July 31, 2022 and 2021

The following tables set forth our consolidated statement of operations data for each period presented:

	2022	Three Months Ended July 31, Percentage of Revenue (\$ in thousands)	2021	Percentage of Revenue	Change \$	Change %
Product, subscription and support revenue	\$ 6,214	94 %	\$ 5,770	95 %	\$ 444	8 %
Professional services revenue	394	6 %	306	5 %	88	29 %
Total revenue	6,608	100 %	6,076	100 %	532	9 %
Cost of product, subscription and support revenue	2,339	35 %	1,668	27 %	671	40 %
Cost of professional services revenue	149	2 %	147	2 %	2	1 %
Total cost of revenue	2,488	38 %	1,815	30 %	673	37 %
Gross profit	4,120	62 %	4,261	70 %	(141)	(3) %
Operating expenses						
Research and development	9,715	147 %	7,571	125 %	2,144	28 %
Sales and marketing	8,754	132 %	7,687	127 %	1,067	14 %
General and administrative	13,433	203 %	5,965	98 %	7,468	125 %
Total operating expenses	31,902	483 %	21,223	349 %	10,679	50 %
Operating loss	(27,782)		(16,962)		(10,820)	64 %

Loss before income taxes	(28,422)	-430 %	(17,202)	-283 %	(11,220)	65 %
Provision for income taxes	7	0 %	35	1 %	(28)	(80) %
Net loss	\$ (28,415)	-430 %	\$ (17,167)	-283 %	\$ (11,248)	66 %

Revenue

Total revenue increased by \$0.5 million or 9% in the three months ended July 31, 2022, as compared to the same period in fiscal 2022.

Product, subscription and support revenue increased by \$0.4 million or 8% primarily due to the net effect of the Company's transition from contracts that had material nonrecurring elements which would not renew in full, replaced by revenues from contract forms that were designed to fully renew with legacy customers and signing new customers.

Professional services revenue increased by \$0.08 million or 29% in the three months ended July 31, 2022, as compared to the same period in fiscal 2022.

Cost of Revenue

Total cost of revenue increased by \$0.7 million or 37% in the three months ended July 31, 2022, as compared to the same period in fiscal 2022. Cost of product, subscription and support revenue increased by \$0.7 million or 40% in the three months ended July 31, 2022, as compared to the same period in fiscal 2022. The increase was due primarily to an increase in customer count and costs incurred to fully ramp cloud hosting environments related to a significant revenue customer that was onboarded in fiscal year 2021.

Cost of professional service cost of revenue increased by an immaterial amount in the three months ended July 31, 2022, as compared to the same period in fiscal 2022.

Gross Profit and Gross Margin

Mixed changes in cost of revenue resulted in a decrease in product, subscription and support gross margin to 62% in the three months ended July 31, 2022, as compared to 71% in the same period in fiscal 2022, and an increase in professional services gross margin to 62% in the three months ended July 31, 2022 as compared to 52% in the same period in fiscal 2022. The period over period decrease in margin for software was primarily the result of cloud costs for a

significant revenue customer that ramped up in the second half of fiscal 2022 and an increase in warranty costs related to inventory held in readiness for large future contracts as well as duplicative charges that occurred while certain customers transitioned from their on-premises to cloud hosted deployment formats. Professional services margin will continue to be volatile contract to contract.

The following tables show gross profit and gross margin, respectively, for product, subscription and support revenue and professional services revenue for the three months ended July 31, 2022 and 2021.

	Three Months Ended July 31,		Change \$	Change %
	2022	2021		
	(\$ in thousands)			
Product, subscription and support gross profit	\$ 3,875	\$ 4,102	\$ (227)	(6)%
Professional services gross profit	245	159	86	54%
Total gross profit	\$ 4,120	\$ 4,261	\$ (141)	(3)%

	Three Months Ended July 31,		Change
	2022	2021	
Product, subscription and support margin	62.4 %	71.1 %	(8.7)%
Professional services margin	62.2 %	52.0 %	10.2%
Total gross margin	62.3 %	70.1 %	(7.8)%

Operating expenses

Research and development

Research and development expenses increased by \$2.1 million or 28% in the three months ended July 31, 2022, as compared to the same period in fiscal 2022, primarily due to non-cash stock compensation expenses of \$1.5 million. The remaining increase of \$0.6 million was driven by the ramping of external costs to support product development and the increase in internal headcount, with some increase driven by cloud computing costs.

Sales and marketing

Sales and marketing cost increased by \$1.1 million or 14% in the three months ended July 31, 2022, as compared to the same period in fiscal 2022, primarily due to non-cash stock compensation of \$0.2 million. The remaining increase of \$0.9 million is due to the expansion of our sales and marketing efforts.

General and administrative

General and administrative costs increased by \$7.5 million or 125% in the three months ended July 31, 2022, as compared to the same period in fiscal 2022, primarily due to non-cash stock compensation of \$5.5 million, an increase in costs related to becoming a publicly traded company, and the overall efforts to support business operations, including increased headcount, directors and officers insurance costs, and the implementation of systems to support operations as a public company.

Other income

The net fluctuation of other income was immaterial to the results of operations.

Other expense

Other expense increased by \$0.4 million or 168% in the three months ended July 31, 2022 as compared to the same period in fiscal 2022, primarily as the result of a cumulative impact of foreign currency losses.

Provision for income taxes

The change in provision for income taxes was immaterial to the results of operations primarily due to our continued net loss position, the accumulation of net loss carryforwards, and offsetting valuation allowance.

Comparison of the Six Months Ended July 31, 2022 and 2021

The following tables set forth our consolidated statement of operations data for each period presented:

	2022	Six Months Ended July 31,		Percentage of Revenue	Change \$	Change %
		Percentage of Revenue	2021			
		(\$ in thousands)				
Product, subscription and support revenue	\$ 12,657	95 %	\$ 11,907	96 %	\$ 750	6 %
Professional services revenue	639	5 %	546	4 %	93	17 %
Total revenue	13,296	100 %	12,453	100 %	843	7 %
Cost of product, subscription and support revenue	4,669	35 %	3,422	27 %	1,247	36 %
Cost of professional services revenue	314	2 %	331	3 %	(17)	(5)%
Total cost of revenue	4,983	37 %	3,753	30 %	1,230	33 %
Gross profit	8,313	63 %	8,700	70 %	(387)	(4)%
Operating expenses						
Research and development	20,442	154 %	14,462	116 %	5,980	41 %
Sales and marketing	19,420	146 %	14,836	119 %	4,584	31 %
General and administrative	29,020	218 %	11,685	94 %	17,335	148 %
Total operating expenses	68,882	518 %	40,983	329 %	27,899	68 %
Operating loss	(60,569)	-456 %	(32,283)	-259 %	(28,286)	88 %
Other income	34	0 %	16	0 %	18	113 %
Other expense	(1,044)	-8 %	(377)	-3 %	(667)	177 %
Loss before income taxes	(61,579)	-463 %	(32,644)	-262 %	(28,935)	89 %
Provision for income taxes	(5)	0 %	(23)	0 %	18	(78)%
Net loss	\$ (61,584)	-463 %	\$ (32,667)	-262 %	\$ (28,917)	89 %

Revenue

Total revenue increased by \$0.8 million or 7% in the six months ended July 31, 2022, as compared to the same period in fiscal 2022.

Product, subscription and support revenue increased by \$0.8 million or 6% primarily due to the net effect of the Company's transition from contracts that had material nonrecurring elements which would not renew in full, replaced by revenues from contract forms that were designed to fully renew with legacy customers and signing new customers.

Professional services revenue increased by \$0.09 million or 17% in the six months ended July 31, 2022, as compared to the same period in fiscal 2022.

Cost of Revenue

Total cost of revenue increased by \$1.2 million or 33% in the six months ended July 31, 2022, as compared to the same period in fiscal 2022. Cost of product, subscription and support revenue increased by \$1.2 million or 36% in the six months ended July 31, 2022, as compared to the same period in fiscal 2022. The increase was due primarily to an increase in customer count, costs incurred to fully ramp cloud hosting environments related to a significant revenue customer that was onboarded in fiscal year 2021.

Cost of professional services revenue decreased by \$0.01 million in the six months ended July 31, 2022, as compared to the same period in fiscal 2022.

Gross Profit and Gross Margin

Mix changes in cost of revenue resulted in a decrease in product, subscription and support gross margin to 63% in the six months ended July 31, 2022, as compared to 71% in the same period in fiscal 2022, and an increase in professional services gross margin to 51% in the six months ended July 31, 2022, as compared to 39% in the same period in fiscal 2022. The period over period decrease in margin for software was primarily the result of cloud costs for a significant revenue customer that ramped up in the second half of fiscal 2022 and an increase in warranty costs related to inventory held in readiness for large future contracts as well as duplicative charges that occurred while certain customers transitioned from their on-premises to cloud hosted deployment formats. Without the warranty costs related to inventory on hand, software margins would have been 70%. Professional services margin will continue to be volatile contract to contract.

The following tables show gross profit and gross margin, respectively, for product, subscription and support revenue and professional services revenue for the six months ended July 31, 2022 and 2021.

	Six Months Ended July 31,		Change \$	Change %
	2022	2021		
	(\$ in thousands)			
Product, subscription and support gross profit	\$ 7,988	\$ 8,485	\$ (497)	(6)%
Professional services gross profit	325	215	110	51 %
Total gross profit	\$ 8,313	\$ 8,700	\$ (387)	(4)%

	Six Months Ended July 31,		Change
	2022	2021	
Product, subscription and support margin	63.1 %	71.3 %	(8.2)%
Professional services margin	50.9 %	39.4 %	11.5 %
Total gross margin	62.5 %	69.9 %	(7.4)%

Operating expenses

Research and development

Research and development expenses increased by \$6.0 million or 41% in the six months ended July 31, 2022, as compared to the same period in fiscal 2022, primarily due to non-cash stock compensation expenses of \$4.0 million and ramping resources to support product development. The remaining increase of \$2.0 million was driven by the ramping of external costs to support product development and the increase in internal headcount, with some increase driven by cloud computing costs.

Sales and marketing

Sales and marketing cost increased by \$4.6 million or 31% in the six months ended July 31, 2022, as compared to the same period in fiscal 2022, primarily due to non-cash stock compensation of \$2.0 million. The remaining increase of \$2.6 million is due to the expansion of our sales and marketing efforts.

General and administrative

General and administrative costs increased by \$17.3 million or 148% in the six months ended July 31, 2022, as compared to the same period in fiscal 2022, primarily due to non-cash stock compensation of \$12.5 million and an increase in costs related to becoming a publicly traded company and the overall efforts to support business operations, including increased headcount, directors and officers insurance costs, and the implementation of systems to support operations as a public company.

Other income

The net fluctuation of other income was immaterial to the results of operations.

Other expense

Other expense increased by \$0.7 million or 177% in the six months ended July 31, 2022, as compared to the same period in fiscal 2022, primarily as the result of a settlement of a pre-Merger claim against LGL and the cumulative impact of foreign currency losses.

Provision for income taxes

The change in provision for income taxes was immaterial to the results of operations primarily due to our continued net loss position, the accumulation of net loss carryforwards, and offsetting valuation allowance.

Liquidity and Capital Resources

Sources of Liquidity

We have incurred losses and negative cash flows from operations since inception. Through July 31, 2022, we have funded our operations with proceeds from sales of common stock and redeemable convertible preferred stock, proceeds related to the public trust shares held by Legacy LGL that were received as part of the Merger and recapitalization, loans, and receipts from sales of our products and services to customers in the ordinary course of business. As of July 31, 2022, we had cash and cash equivalents of \$9.7 million, with no debt outstanding as of that date. Our primary source of liquidity is cash flows from operating activities, which may be supplemented by our equity line of credit facility described below and other future financing agreements, including the convertible debt facility signed on the date of this report (see Note 14 to the financial statements included in this report for additional information).

Tumim Stone Capital Committed Equity Financing

On February 11, 2022, we entered into the Purchase Agreement with Tumim, pursuant to which Tumim has committed to purchase up to \$175 million of common stock (the "Total Commitment"), at our direction from time to time, subject to the satisfaction of the conditions in the Purchase Agreement. Also on February 11, 2022, we entered into a registration rights agreement with Tumim (the "Registration Rights Agreement"), pursuant to which we have filed with the SEC a registration statement to register for resale under the Securities Act the shares of common stock that may be issued to Tumim under the Purchase Agreement. Pursuant to the terms of the Purchase Agreement, at the time we signed the Purchase Agreement and the Registration Rights Agreement, we paid a cash fee of \$1.75 million, or 1% of the Total Commitment, to Tumim as consideration for its commitment to purchase shares of our common stock under the Purchase Agreement.

The sales of common stock by us to Tumim under the Purchase Agreement, if any, will be subject to certain limitations and may occur, from time to time at our sole discretion, over the approximately 36-month period commencing upon the date of initial satisfaction of all conditions to Tumim's purchase obligations set forth in the Purchase Agreement (the "Commencement Date"). From and after the Commencement Date, we will have the right, but not the obligation, from time to time at our sole discretion, to direct Tumim to purchase certain amounts of our common stock, subject to certain limitations in the Purchase Agreement, that we specify in purchase notices that we deliver to Tumim under the Purchase Agreement (each such purchase, a "Purchase"). Shares of common stock will be issued to Tumim at either a (i) 3% discount to the average daily volume weighted average price (the "VWAP") of the common stock during the three consecutive trading days from the date that a purchase notice with respect to a particular purchase (a "VWAP Purchase Notice") is delivered to Tumim (a "Forward VWAP Purchase"), or (ii) 5% discount to the lowest daily VWAP during the three consecutive trading days from the date that a VWAP Purchase Notice with respect to a particular purchase is delivered to Tumim (an "Alternative VWAP Purchase"). Each VWAP Purchase Notice to Tumim will specify whether the applicable purchase is a Forward VWAP Purchase or an Alternative VWAP Purchase, and will direct that Tumim purchase the applicable number of shares of common stock at the applicable purchase price. There is no upper limit on the price per share that Tumim could be obligated to pay for the common stock under the Purchase Agreement. The purchase price per share of common stock to be sold in a Purchase will be appropriately adjusted for any reorganization, recapitalization, non-cash dividend, stock split, reverse stock split or other similar transaction.

Based on the current price of our common stock as of the date of this report, we estimate that we would be able to raise approximately \$20 million in proceeds under the Purchase Agreement due to the ownership limitations set forth in the Purchase Agreement.

Outlook

Based on our current operating plan, management believes that we do not have sufficient cash and cash equivalents on hand to support current operations for at least one year from the date of issuance of the condensed consolidated financial statements. Management has concluded that this circumstance raises substantial doubt about our ability to continue as a going concern.

Our estimate does not take into account potential sales of our common stock to Tumim under the Purchase Agreement, or payments under potential contracts with strategic customers. We also plan to reduce certain expenses over the next several quarters in an effort to make the most effective use of our cash on hand.

Our future capital requirements will continue to depend on many factors, including, but not limited to, our ability to attract and retain customers and their willingness and ability to pay for our products and services, and the timing and extent of spending to support our efforts to market and develop our products. Further, we may enter into future arrangements to acquire or invest in businesses, products, services, strategic partnerships, and technologies. As such, we may be required to seek additional equity or debt financing. In the event that additional financing is required from outside sources, we may not be able to raise it on terms acceptable to us or at all. If additional funds are not available to us on acceptable terms, or at all, our business, financial condition, and results of operations would be adversely affected.

Cash Flows

For the Six Months Ended July 31, 2022 and 2021

The following table summarizes our cash flows for the periods presented:

	Six Months Ended July 31,	
	2022	2021
	(in millions)	
Net cash used in operating activities	\$	(41.7) \$ (31.2)
Net cash used in investing activities	\$	(1.7) \$ (1.2)
Net cash provided by financing activities	\$	5.6 \$ 15.1

Operating Activities

Net cash used in operating activities during the six months ended July 31, 2022 was \$41.7 million, which primarily resulted from a net loss of \$61.6 million, primarily driven by growth-related operating expenses exceeding the gross profits from sales, adjusted for non-cash charges of \$20.0 million and net cash inflows of \$0.1 million from changes in operating assets and liabilities. Non-cash charges primarily consisted of \$18.6 million of stock compensation expense and \$1.2 million of depreciation and amortization expense. Cash used in operating activities during the six months ended July 31, 2022 was primarily driven by a decrease in accrued expenses of \$1.1 million, offset from the change in inventory of \$2.0 million, which is the result of timing of new customer contracts.

Net cash used in operating activities during the six months ended July 31, 2021 was \$31.2 million, which resulted from a net loss of \$32.7 million, primarily driven by growth-related operating expenses exceeding the gross profits from sales, adjusted for non-cash charges of \$0.5 million and net cash inflows of \$1.0 million from changes in operating assets and liabilities. Non-cash charges primarily consisted of \$0.4 million of depreciation and amortization expense. Cash used in operating activities during the six months ended July 31, 2021 benefited from the change in accrued expenses of \$3.0 million, offset from the change in accounts receivable of \$1.2 million, which is the result of timing of new customer contracts.

The \$10.5 million increase in net cash used in operating activities in the six months ended July 31, 2022 as compared to the same period in fiscal 2022 was driven by an increase in cash operating expenses of approximately \$8.7 million, primarily due to the new recurring costs of operating as a public company of \$4.2 million and increases in sales and marketing expense of \$2.5 million and research and development costs of \$2.0 million, an increase in accrued expenses of \$3.5 million and an increase in prepaid inventory of \$1.9 million, offset by a decrease in receivables of \$1.8 million, a decrease in prepaid expenses of \$1.6 million, and other minor cash activity.

Investing Activities

Net cash used in investing activities of \$1.7 million and \$1.2 million during the six months ended July 31, 2022 and 2021, respectively, was due solely to purchases of property and equipment.

Financing Activities

Net cash provided by financing activities of \$5.6 million during the six months ended July 31, 2022 was primarily due to \$7.4 million net cash proceeds received to fund employees' tax withholding obligations associated with vested RSUs, which is disbursed to the appropriate taxing authorities, offset by the \$1.8 million payment to Tumim for the commitment fee in connection with the equity line.

Net cash provided by financing activities of \$15.1 million during the six months ended July 31, 2021 was primarily due to net proceeds from issuing common stock for \$0.3 million, proceeds from stock subscriptions for \$0.3 million and \$15 million from the loan issued during the six months ended July 31, 2021, offset by payment of deferred transaction costs of \$0.5 million.

Contractual Obligations

Our principal commitments consist of lease obligations for office space. For more information regarding our lease obligations, see Note 8 to the interim condensed consolidated financial statements.

We have made and expect to continue to make additional investments in our product, scale our operations, and continue to enhance our security measures. We will continue to expand the use of software systems to scale with our overall growth.

Following the issuance of the unsecured convertible promissory note to 3i under the newly signed debt facility (see Note 14 to the financial statements included in this report), we will be obligated to repay amounts borrowed, unless earlier converted into shares of our common stock under the terms of the promissory note.

Critical Accounting Policies and Estimates

Our financial statements are prepared in accordance with GAAP. The preparation of these financial statements require us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses, as well as related disclosures. We evaluate our estimates and assumptions on an ongoing basis. Our estimates are based on historical experience and various other assumptions that we believe to be reasonable under the circumstances. Our actual results could differ from these estimates.

The critical accounting policies, assumptions and judgments that we believe have the most significant impact on our consolidated financial statements are described below.

Revenue Recognition

Our revenues are derived from sales of product, subscriptions, support and maintenance, and other services. We satisfy performance obligations to recognize revenue for a single performance obligation ratably over the expected term with the customer.

Revenue is recognized when all of the following criteria are met:

1. Identification of the contract, or contracts, with a customer—A contract with a customer to account for exists when (i) we enter into an enforceable contract with a customer that defines each party's rights regarding the goods or services to be transferred and identifies the payment terms related to these goods or services, (ii) the contract has commercial substance and the parties are committed to perform, and (iii) we determine that collection of substantially all consideration to which we will be entitled in exchange for goods or services that will be transferred is probable based on the customer's intent and ability to pay the promised consideration.

2. Identification of the performance obligations in the contract—Performance obligations promised in a contract are identified based on the goods or services that will be transferred to the customer that are both capable of being distinct, whereby the customer can benefit from the goods or service either on its own or together with other resources that are readily available from third parties or from us, and are distinct in the context of the contract, whereby the transfer of the goods or services is separately identifiable from other promises in the contract. To the extent a contract includes multiple promised goods or services, we apply judgment to determine whether promised goods or services are capable of being distinct and distinct in the context of the contract. If these criteria are not met the promised goods or services are accounted for as a combined performance obligation.

3. Determination of the transaction price—The transaction price is determined based on the consideration to which we will be entitled in exchange for transferring goods or services to the customer.

4. Allocation of the transaction price to the performance obligations in the contract—We allocate the transaction price to each performance obligation based on the amount of consideration expected to be received in exchange for transferring goods and services to the customer. If the contract contains a single performance obligation, the entire transaction price is allocated to the single performance obligation on a relative standalone selling price based on the observable selling price of our products and services.

5. Recognition of revenue when, or as, we satisfy performance obligations—We satisfy performance obligations either over time or at a point in time. Revenue is recognized at or over the time the related performance obligation is satisfied by transferring a promised good or service to a customer.

Costs to Obtain or Fulfill a Contract

We capitalize incremental costs of obtaining a non-cancelable subscription and support revenue contract and on professional services revenue as contract acquisition costs. The capitalized amounts consist primarily of sales commissions paid to our direct sales force. The capitalized amounts are recoverable through future revenue streams under all non-cancelable customer contracts. Amortization of capitalized costs, which occurs on a straight line basis, is included in sales and marketing expense in the accompanying condensed consolidated statements of operations. Contract fulfillment costs include appliance hardware and installation costs that are essential in providing the future benefit of the solution, which are also capitalized. We amortize our contract fulfillment costs ratably over the contract term in a manner consistent with the related revenue recognition on that contract and are included in cost of revenue.

Stock-Based Compensation

Stock compensation expense for stock options is recognized on a straight line basis and with a provision for forfeitures matched to historical experience for matured grant cohorts. Stock compensation expense for RSUs granted under the 2014 Plan, which contain both service and performance conditions, is recognized on a graded-scale basis matched to the length and vesting tranches for each grant. Stock compensation expense for RSUs granted under the 2021 Plan have only service vesting conditions. Expense will be recognized on a straight-line basis for all RSU awards with only service conditions. In the event that a RSU grant holder is terminated before the award is fully vested for RSUs granted under either Plan, the full amount of the unvested portion of the award will be recognized as a forfeiture in the period of termination. The fair value of RSUs is based on the fair value of our common stock on the date of the grant.

We use the Black-Scholes pricing model to estimate the fair value of options on the date of grant. The use of a valuation model requires management to make certain assumptions with respect to selected model inputs. We grant stock options at exercise prices determined equal to the fair value of common stock on the date of the grant. The fair value of our common stock at each measurement date is based on a number of factors, including the results of third-party valuations, our historical financial performance, and observable arms-length sales of our capital stock including convertible preferred stock, and the prospects of a liquidity event, among other inputs. We estimate an expected forfeiture rate for stock options, which is factored into the determination of stock-based compensation expense. The volatility assumption is based on the historical and implied volatility of our peer group with similar business models. The risk-free interest rate is based on U.S. Treasury zero-coupon issues with a remaining term equal to the expected life assumed at the date of grant. The dividend yield percentage is zero because we do not currently pay dividends nor do we intend to do so in the future.

These estimates involve inherent uncertainties and the use of different assumptions may have resulted in stock-based compensation expense that was different from the amounts recorded.

As of July 31, 2022, there was \$48.5 million of unrecognized compensation cost related to unvested RSUs without performance obligations. The weighted average remaining vesting period was 3.25 years.

Leases

In February 2016, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2016-02, Leases (Topic 842) Section A- Leases: Amendments to the FASB Accounting Standards Codification. The standard requires lessees to recognize the assets and liabilities arising from leases on the balance sheet and retains a distinction between finance leases and operating leases. The classification criteria for distinguishing between finance leases and operating leases are substantially similar to the classification criteria for distinguishing between capital leases and operating leases in the previous lease guidance. We adopted this standard and related amendments in the first quarter of fiscal 2023, using the modified retrospective approach.

The modified retrospective approach provides a method for recording existing leases at adoption with a cumulative adjustment to retained earnings. We elected the package of practical expedients which permits us to not reassess (1) whether any expired or existing contracts are or contain leases, (2) the lease classification for any expired or existing leases, and (3) any initial direct costs for any expired or existing leases as of the effective date. We also elected the practical expedient lease considerations to not allocate lease considerations between lease and non-lease components for real estate leases. As such, real estate lease considerations are treated as a single lease-component and accounted for accordingly.

We applied a portfolio approach to effectively account for the lease liabilities and right-of-use lease assets. We exclude leases with an initial term of 12 months or less from the application of Topic 842.

Adoption of the new standard resulted in the recording of \$1.1 million and \$2.7 million of current lease liabilities and long-term lease liabilities, respectively, and \$2.9 million in corresponding right-of-use lease assets. The difference between the approximate value of the right-of-use lease assets and lease liabilities is attributable to deferred rent, which is comprised of tenant improvement allowance and rent abatement. The cumulative change in the beginning accumulated deficit was \$0.02 million due to the adoption of Topic 842. There was no material impact on the Company’s condensed consolidated statement of operations or consolidated statements cash flows. Comparative periods continue to be presented in accordance with legacy guidance in Topic 840.

Recently Issued Accounting Standards

Refer to Note 1, Organization and summary of changes in significant accounting policies, of the notes to our unaudited condensed consolidated financial statements included in this Form 10-Q for our assessment of recently issued and adopted accounting standards.

Commitments and Contingencies

Refer to Note 7, Commitments and contingencies, of the notes to our unaudited condensed consolidated financial statements included in this Form 10-Q.

Emerging Growth Company (“EGC”) Status

We are an emerging growth company, as defined in the JOBS Act. Under the JOBS Act, emerging growth companies can delay adopting new or revised accounting standards issued subsequent to the enactment of the JOBS Act until those standards apply to private companies. We have elected to use this extended transition period for complying with certain new or revised accounting standards that have different effective dates for public and private companies until the earlier of the date we (i) are no longer an EGC or (ii) affirmatively and irrevocably opt out of the extended transition period provided in the JOBS Act. As a result, our consolidated financial statements may or may not be comparable to companies that comply with new or revised accounting pronouncements as of public companies’ effective dates.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We have operations in the United States and internationally, and we are exposed to market risk in the ordinary course of our business.

Foreign Currency Risk

The significant majority of our sales contracts are denominated in U.S. dollars, with a small number of contracts denominated in foreign currencies. A portion of our operating expenses are incurred outside the United States, denominated in foreign currencies and subject to fluctuations due to changes in foreign currency exchange rates, particularly changes in the Singapore Dollar, British Pound, Japanese Yen and Australian Dollar. Additionally, fluctuations in foreign currency exchange rates may cause us to recognize transaction gains and losses in our consolidated statements of operations. The effect of a hypothetical 10% change in foreign currency exchange rates applicable to our business would not have a material impact on our historical consolidated financial statements for fiscal 2023 or fiscal 2022. As the impact of foreign currency exchange rates has not been material to our historical operating results, we have not entered into derivative or hedging transactions, but we may do so in the future if our exposure to foreign currency becomes more significant.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures (as such terms are defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) are designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in reports filed or submitted under the Exchange Act is accumulated and communicated to management, including our co-Chief Executive Officers and Chief Financial Officer, to allow timely decisions regarding required disclosure. In designing and evaluating disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. In addition, the design of disclosure controls and procedures must reflect the fact that there are resource constraints and that management is required to apply judgment in evaluating the benefits of possible controls and procedures relative to their costs.

Under the supervision and with the participation of our management, including our co-Chief Executive Officers and Chief Financial Officer, we conducted an evaluation of the effectiveness of our disclosure controls and procedures as of July 31, 2022. Based upon that evaluation, our co-Chief Executive Officers and Chief Financial Officer concluded that the Company's disclosure controls and procedures were not effective as of July 31, 2022 due to the material weaknesses in our internal control over financial reporting described below.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting during the quarter ended July 31, 2022 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Material Weaknesses in Internal Control over Financial Reporting

Our internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with U.S. GAAP and includes those policies and procedures that: (1) pertain to the maintenance of records that in reasonable detail accurately and fairly reflect our transactions and the dispositions of our assets; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with U.S. GAAP and that receipts and expenditures are being made only in accordance with appropriate authorizations of our management and board of directors; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of assets that could have a material effect on our financial statements.

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of our annual or interim financial statements will not be prevented or detected on a timely basis.

Management determined that, as of January 31, 2022, we did not have a sufficient number of personnel with an appropriate degree of accounting and internal controls knowledge, experience, and training to appropriately analyze, record and disclose accounting matters commensurate with our accounting and reporting requirements, which resulted in an inability to consistently establish appropriate authorities and responsibilities in pursuit of our financial reporting objectives, which constitutes a material weakness. This material weakness contributed to the following additional material weaknesses:

- We did not design and maintain effective controls over the accounting for stock-based compensation modifications. This material weakness resulted in the restatement of our unaudited condensed consolidated financial statements as of and for the three months ended October 31, 2021. The error was corrected within our Annual Report on Form 10-K, filed on May 2, 2022, resulting in the consolidated financial statements being correctly stated for the year ended January 31, 2022.
- We did not design and maintain effective controls over the review of journal entries and account reconciliations. Specifically, certain personnel have had the ability to both (i) create and post journal entries within our general ledger system, and (ii) prepare and review account reconciliations. This material weakness did not result in a material misstatement to the consolidated financial statements.
- We did not design and maintain effective controls over information technology ("IT") general controls for information systems that are relevant to the preparation of our financial statements. Specifically, we did not design and maintain: (i) program change management controls for the financial systems to ensure that information technology program and data changes affecting financial IT applications and underlying accounting records are identified, tested, authorized and implemented appropriately; (ii) appropriate user access controls to ensure appropriate segregation of duties and that adequately restrict user and privileged access to financial applications, programs and data to appropriate personnel; (iii) computer operations controls to ensure data backups are authorized and restorations monitored; and (iv) testing and approval controls for program development to ensure that new software development is aligned with business and IT requirements. This material weakness did not result in a material misstatement to the consolidated financial statements.

These material weaknesses could result in a misstatement of substantially all accounts or disclosures that would result in a material misstatement to the annual or interim consolidated financial statements that would not be prevented or detected.

Remediation Plan

We have continued implementation of a plan to remediate these material weaknesses. These remediation measures are ongoing and have included the following:

- we hired and continued to hire additional accounting and finance resources with public company experience, including expertise in technical accounting and complex transactions, including stock-based compensation arrangements, in addition to utilizing third-party consultants and specialists, to supplement our internal resources;
- we have revised account reconciliation controls within all business processes to require proper segregation of duties of preparer and reviewer utilizing the additional personnel mentioned above;
- we have implemented comprehensive access control protocols to implement restrictions on user and privileged access to certain applications and establishing additional controls over the preparation and review of journal entries; and
- we have redesigned and strengthened financial system and application change management controls, testing and approval controls for program development, as well as data backup and restoration controls.

The elements of our remediation will continue to be accomplished over time and are subject to continued review, implementation and testing by management, as well as oversight by the audit committee of our board of directors, to determine that it is achieving our objectives. We are in the process of designing and implementing the steps to remediate these weaknesses. The material weaknesses will not be considered remediated until our remediation plan has been fully designed and implemented, the applicable controls operate for a sufficient period of time, and we have concluded, through testing, that the newly implemented and enhanced controls are operating effectively.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

From time to time, we may become involved in legal proceedings arising in the ordinary course of our business. Except as set forth below, we are not currently a party to any material legal proceedings, and we are not aware of any pending or threatened legal proceeding against us that we believe could have an adverse effect on our business, operating results or financial condition.

Securities Litigation

On April 22, 2022, a federal securities class action lawsuit was filed by a purported stockholder in the United States District Court for the Eastern District of Virginia, or the Court. On July 15, 2022, the Court appointed a lead plaintiff for the action, and ordered that the action bear the caption *In re IronNet, Inc. Securities Litigation*, No. 1:22-cv-004499-RDA-JFA. On August 29, 2022, the lead plaintiff filed an amended complaint on behalf of a proposed class consisting of those who acquired our securities between September 14, 2021 and December 15, 2021. The amended complaint names us, our co-Chief Executive Officers, and our Chief Financial Officer as defendants and asserts claims under Sections 10(b) and 20(a) of the Securities Exchange Act of 1934, as amended, for alleged misrepresentations and/or omissions in September 2021 regarding our financial guidance for fiscal year 2022 and a claim under Section 20A of the Securities Exchange Act of 1934, as amended, for alleged trading on material nonpublic information by one of our co-Chief Executive Officers. The amended complaint seeks an unspecified amount of damages on behalf of the putative class and an award of costs and expenses, including reasonable attorneys' fees.

The defendants have until October 26, 2022 to respond to the amended complaint. If the defendants file a motion to dismiss, the lead plaintiff will have until November 25, 2022 to file an opposition, and the defendants will have until December 16, 2022 to file a reply in support of the motion to dismiss.

We believe the claims are without merit, intend to defend the case vigorously, and have not recorded a liability related to this lawsuit because, at this time, we are unable to determine whether an unfavorable outcome is probable or to estimate reasonably possible losses.

Item 1A. Risk Factors

Our business is subject to numerous risks that you should carefully consider. These risks are more fully described in the section titled "Risk Factors" included in our Annual Report on Form 10-K filed with the Securities and Exchange Commission, or SEC, on May 2, 2022. A summary of these risks that could materially and adversely affect our business, financial condition, operating results and prospects include the following:

- We have experienced rapid growth in recent periods, and if we do not manage our future growth, our business and results of operations will be adversely affected.
- We have a history of losses and we may not be able to achieve or sustain profitability in the future, which raises substantial doubt about our ability to continue as a going concern.
- If organizations do not adopt cloud-enabled, and/or software as a service-delivered cybersecurity solutions that may be based on new and untested security concepts, our ability to grow our business and results of operations may be adversely affected.
- Competition from existing or new companies could cause us to experience downward pressure on prices, fewer customer orders, reduced margins, the inability to take advantage of new business opportunities and loss of market share.
- If our solutions fail or are perceived to fail to detect or prevent incidents or have or are perceived to have defects, errors, or vulnerabilities, our brand and reputation would be harmed, which would adversely affect our business and results of operations.
- We rely on third-party data centers and our own colocation data centers to host and operate our platform, and any disruption of or interference with its use of these facilities may negatively affect our ability to maintain the performance and reliability of our platform, which could cause our business to suffer.
- Our future success will be substantially dependent on our ability to attract, retain, and motivate the members of our management team and other key employees throughout our organization, and the loss of one or more key employees or an inability to attract and retain highly skilled employees could harm our business.
- If we are unable to maintain successful relationships with our distribution partners, or if our distribution partners fail to perform, our ability to market, sell and distribute our platform and solutions efficiently will be limited, and our business, financial position and results of operations will be harmed.
- Our business depends, in part, on sales to government organizations, and significant changes in the contracting or fiscal policies of such government organizations could have an adverse effect on our business and results of operations.
- The success of our business will depend in part on our ability to protect and enforce our intellectual property rights.
- We are subject to laws and regulations, including governmental export and import controls, sanctions, and anti-corruption laws, that could impair our ability to compete in our markets and subject us to liability if we are not in full compliance with applicable laws.
- Our management has identified material weaknesses in our internal control over financial reporting and may identify additional material weaknesses in the future or otherwise fail to maintain an effective system of internal controls, which may result in material misstatements of our financial statements or cause us to fail to meet our periodic reporting obligations.
- Our international operations and plans for future international expansion expose us to significant risks, and failure to manage those risks could adversely impact our business.

Except as set forth below, there have been no material changes to the risk factors set forth in the Annual Report on Form 10-K filed with the SEC on May 2, 2022. However, the risk factors described in this Quarterly Report and in the Annual Report on Form 10-K are not the only risks that we face. Additional risks and uncertainties that we are unaware of, or that we currently believe are not material, may also become important factors that adversely affect our business. If any such risks materialize, it could have a material adverse effect on our business, financial condition, results of operations and growth prospects and cause the trading price of our common stock to decline.

We have a history of losses and may not be able to achieve or sustain profitability in the future, which raises substantial doubt about our ability to continue as a going concern.

We have incurred net losses in all periods since our inception. We experienced net losses of \$242.6 million and \$55.4 million for fiscal 2022 and fiscal 2021, respectively, and net losses of \$61.6 million for the six months ended July 31, 2022. As of July 31, 2022, we had an accumulated deficit of \$479.3 million. We cannot predict when or whether we will ever reach or maintain profitability. We will also continue to incur significant operating expenses, which will negatively affect our results of operations if our total revenue does not increase. We cannot assure you that we will achieve increases in our total revenue or improvements in our results of operations. We also expect to incur significant additional legal, accounting, and other expenses as a public operating company. Any failure to increase our revenue as we invest in our business or to manage our costs could prevent us from achieving or maintaining profitability or positive cash flow.

Our history of losses and the factors discussed above raise substantial doubt regarding our ability to continue as a going concern, which may create negative reactions to the price of our common stock. If we are unable to continue as a going concern, we may have to liquidate our assets and may receive less than the value at which those assets are carried on our financial statements, and it is likely that investors will lose all or a part of their investment. Further, the perception that we may be unable to continue as a going concern may impede our ability to pursue strategic opportunities or operate our business due to concerns regarding our ability to discharge our contractual obligations. In addition, if there remains substantial doubt about our ability to continue as a going concern, investors or other financing sources may be unwilling to provide additional funding to us on commercially reasonable terms, or at all.

We will need to raise additional capital to continue, which capital may not be available on terms acceptable to us, or at all, and which could reduce our ability to compete and could harm our business.

Retaining our current levels of personnel and products offerings may require additional funds to respond to business challenges, including the need to develop new products and enhancements to our platform, improve our operating infrastructure, or acquire complementary businesses and technologies. The failure to raise additional capital or generate the significant capital necessary to expand our operations and invest in new products could reduce our ability to compete and could harm our business. Accordingly, we may need to engage in equity or debt financings to secure additional funds. We have entered into an equity line of credit facility under which we may sell shares of common stock for proceeds of up to \$175 million subject to a number of conditions and limitations set forth in the purchase agreement for the facility. Many of these limitations depend on the prevailing stock price of our common stock. Based on the current price of our common stock as of the date of this report, we estimate that we would not be able to raise more than approximately \$20 million in proceeds under the facility before certain of the ownership limitations would be exceeded. In September 2022, we also entered into an agreement to borrow \$10 million under a convertible promissory note with a lender and may, upon the satisfaction of a number of conditions related to the prevailing stock price and trading volume of our common stock and the requirement to have repaid or converted a portion of the initial promissory note, borrow an additional \$15 million from this lender. Amounts borrowed may, depending on the trading price of our common stock at the time, be converted into shares of our common stock. Under the convertible note financing, and if we raise additional equity financing, whether under the equity line of credit facility or otherwise, stockholders may experience significant dilution of their ownership interests to the extent we issue a significant number of shares of common stock, and the market price of the common stock could decline. The current convertible debt contains restrictions on our future debt financing, but if we engage in future debt financing, the holders of debt would have priority over the holders of common stock, and we may be required to accept terms that restrict our operations or our ability to incur additional indebtedness or to take other actions that would otherwise be in the interests of the debt holders. In addition, adverse macroeconomic developments, including without limitation inflation, slowing economic growth, rising interest rates or a potential economic recession, may reduce our ability to access such capital. Any of the above could harm our business, results of operations and financial condition.

If organizations do not adopt cloud-enabled, and/or SaaS-delivered cybersecurity solutions that may be based on new and untested security concepts, our ability to grow our business and results of operations may be adversely affected.

Our future success depends on the growth in the market for cloud-enabled and/or SaaS-delivered cybersecurity solutions. The use of SaaS solutions to manage and automate security and IT operations is rapidly evolving. As such, it is difficult to predict our potential growth, customer adoption and retention rates, customer demand for our solutions, or the success of existing or future competitive products. Any expansion in our market depends on a number of factors, including the cost, performance and perceived value associated with our solutions and those of our competitors. If our solutions do not achieve widespread adoption or there is a reduction in demand for our solutions due to a lack of customer acceptance, technological challenges, competing products, privacy or other liability concerns, decreases in corporate spending, weakening economic conditions, or otherwise, it could adversely affect our business, results of operations and financial results, resulting from such things as early terminations, reduced customer retention rates, or decreased sales. Negative or worsening conditions in the general economy both in the United States and abroad, including conditions resulting from financial and credit market fluctuations and inflation, could cause a decrease in corporate spending on enterprise software in general, and in the cybersecurity industry specifically, and negatively affect the rate of growth of our business. We do not know whether the trend in adoption of cloud-enabled and/or SaaS-delivered cybersecurity solutions that we have experienced in the past will continue in the future. Furthermore, if we or other SaaS security providers experience security incidents, loss, or disclosure of customer data, disruptions in delivery, or other problems, the market for SaaS solutions as a whole, including our security solutions, could be negatively affected.

In addition to reliance on a cloud-enabled and/or SaaS-delivered model, our cybersecurity offerings utilize a novel and relatively new approach to collective defense that relies on customers sharing sensitive customer information with us. Some of that raw customer information may contain personal or confidential information, or data perceived to be personal or confidential information. From that customer information, we generate analytics that allow us to deliver threat knowledge and network intelligence at machine speed across a wide variety of industries. Because this new approach requires the sharing of sensitive customer information, concerns may exist that sharing of the customer information may violate, or be perceived as potentially violating, privacy laws or providing a competitive advantage to another entity. As a result, some current or prospective customers may decide not to procure our products or share any customer information. Such lack of acceptance could have negative effects on us, including reduced or lost revenues or inadequate information being available for our analysis, thus making our products less effective. In addition, uncertainties about the regulatory environment concerning personal information and the potential liability raised by sharing such information could further inhibit the broad-scale adoption of our solutions.

Historically, information sharing related to cybersecurity has been a very well accepted concept from a theoretical perspective but very difficult to implement in practice. Companies are generally reluctant to share their sensitive cyber information with other entities, despite knowing the advantages of doing so. Although raw customer information will not be shared with other parties, it does undergo filtering, concatenation, and other transformations within our solutions with the goal of removing any sensitive or personal information. Misperceptions may exist, however, about what information gets shared, with whom that information is shared, and the jurisdictions (including foreign countries) of the companies with which the information gets shared. Further, concerns of existing or potential customers may exist related to the ability to completely remove any indicia of the source company, general market rejection of information sharing, or specific market skepticism of our approach to collective defense, which may further add to a lack of customer acceptance.

In addition to the potential concerns related to sharing sensitive information in a system consisting of commercial or potentially competitive entities, additional concerns can arise when governments become involved as participants in the collective defense ecosystem. From a commercial perspective, companies frequently view information sharing with governments as risky, based on perceptions that the governments might use such shared information to take action against the companies or to otherwise utilize it in a way that will expose such companies to liability. Such perceptions could lead commercial entities to stop sharing, not procure our services in the first place, or terminate their relationship with us altogether. Similarly, governments (as customers) may be unable to properly process such data or utilize it in a meaningful way, or share useful information back into our solutions. Any of these concerns could lead to reduced

sales or contribute to a lack of customer acceptance. In addition, the mere involvement of one or more government entities may harm our reputation with certain companies.

The COVID-19 pandemic and other recent global events could adversely affect our business, operating results and future revenue.

The ongoing COVID-19 pandemic has and may continue to impact worldwide economic activity and financial markets. Some of the precautionary measures taken at the outset of the pandemic, many of which we have now made largely permanent and sustainable, and associated economic issues, both in the United States and across the globe, could negatively affect our cybersecurity efforts, significantly delay and lengthen our sales cycles, impact our sales and marketing efforts, reduce employee efficiency and productivity, slow our international expansion efforts, increase cybersecurity risks, and create operational or other challenges, any of which could harm our business and results of operations. Moreover, due to our subscription-based business model, the effect of the COVID-19 pandemic may not be fully reflected in our results of operations until future periods, if at all.

In addition, the COVID-19 pandemic, and variants thereof, may disrupt the operations of our prospective clients, customers, and partners for an indefinite period of time. Some of our customers have been negatively impacted by the COVID-19 pandemic, which could result in delays in accounts receivable collection, or result in decreased technology spending, including spending on cybersecurity, which could negatively affect our revenues. Some of our prospective clients have also been negatively impacted by the COVID-19 pandemic, which could result in delays in sales or lengthen purchasing decisions.

More generally, the COVID-19 pandemic, including the emergence of variant strains of COVID-19, the ongoing conflict between Russia and Ukraine, inflation higher than we have seen in decades and supply chain issues have adversely affected economies and financial markets globally, and continued uncertainty could lead to a prolonged economic downturn, which could result in a larger customer turnover than is currently anticipated, reduced demand for our products and services, and increased length of sales cycles, in which case our revenues could be significantly impacted. The impact of the COVID-19 pandemic and other global events may also exacerbate other risks discussed in this “Risk Factors” section and elsewhere in the Annual Report on Form 10-K. It is not possible at this time to estimate the impact that the COVID-19 pandemic and other global events could have on our business, as the impact will depend on future developments, which are highly uncertain and cannot be predicted.

Weakened global economic conditions, including those from the recent COVID-19 pandemic and global events, may harm our industry, business and results of operations.

Our overall performance depends in part on worldwide economic conditions. Global financial developments, downturns and global health crises or pandemics seemingly unrelated to us or the cybersecurity industry, may harm us, including due to disruptions or restrictions on our employees’ ability to work and travel. The United States and other key international economies have been affected from time to time by falling demand for a variety of goods and services, restricted credit, poor liquidity, reduced corporate profitability, volatility in credit, equity and foreign exchange markets, bankruptcies, outbreaks of COVID-19 and the resulting impact on business continuity and travel, supply chain disruptions, inflation and overall uncertainty with respect to the economy, including with respect to tariff and trade issues. For example, inflation rates, particularly in the United States, have increased recently to levels not seen in years, and increased inflation may result in decreased demand for our products and services, increases in our operating costs (including our labor costs), reduced liquidity and limits on our ability to access credit or otherwise raise capital. In addition, the Federal Reserve has raised, and may again raise, interest rates in response to concerns about inflation, which coupled with reduced government spending and volatility in financial markets may have the effect of further increasing economic uncertainty and heightening these risks. Additionally, financial markets around the world experienced volatility following the invasion of Ukraine by Russia in February 2022. In response to the invasion, the US, UK and EU, along with others, imposed significant new sanctions and export controls against Russia, Russian banks and certain Russian individuals and may implement additional sanctions or take further punitive actions in the future. The full economic and social impact of the sanctions imposed on Russia (as well as possible future punitive measures that may be implemented), as well as the counter measures imposed by Russia, in addition to the ongoing military conflict between Ukraine and Russia, which could conceivably expand into the surrounding region, remains uncertain; however, both the conflict and related sanctions have resulted and could continue to result in disruptions to trade, commerce, pricing stability, credit availability, and/or supply chain continuity, in both Europe and globally, and has introduced significant uncertainty into global markets. As the adverse effects of this conflict continue to develop and potentially spread, both in Europe and throughout the rest of the world, our customers may be negatively impacted, which in turn may cause them to delay purchasing decisions, affect subscription renewal rates and otherwise depress our customers’ spending levels. As a result, our business and results of operations may be adversely affected by the ongoing conflict between Ukraine and Russia, particularly to the extent it escalates to involve additional countries, further economic sanctions or wider military conflict. We have current and potential new customers throughout Europe. If economic conditions in Europe and other key markets for our platform continue to remain uncertain or deteriorate further, including as a result of COVID-19 or otherwise, many customers may delay or reduce their cybersecurity spending.

The factors discussed above have and may continue to influence our customers’ behavior, spending patterns and general demand for our platform and services and prompt our customers to take additional precautionary measures to limit or delay expenditures and preserve capital and liquidity as they monitor global economic conditions and the risk of a global recession. The growth of our revenues and potential profitability of our business depends on demand for our platform and services generally, and business spend management specifically. In addition, our revenues are dependent on the number of users of our services. Historically, during economic downturns there have been reductions in spending on cybersecurity as well as pressure for extended billing terms or pricing discounts, which would limit our ability to grow our business and negatively affect our operating results. These conditions affect the rate of cybersecurity spending and could adversely affect our customers’ ability or willingness to subscribe to our services, delay prospective customers’ purchasing decisions, reduce the value or duration of their subscriptions or affect renewal rates, all of which could harm our operating results.

If our customers do not renew their subscriptions for our products, our future results of operations could be harmed.

In order for us to maintain or improve our results of operations, it is important that our customers renew their subscriptions for our platform and solutions when existing contract terms expire, and that we expand our commercial relationships with our existing customers by selling additional subscriptions. Our customers have no obligation to renew their subscriptions after the expiration of their contractual subscription period, which is generally one year, and in the normal course of business, some customers have elected not to renew. In addition, our customers may renew for shorter contract subscription lengths or cease using certain solutions. Our customer retention and expansion may decline or fluctuate as a result of a number of factors, including our customers’ satisfaction with our services, our pricing, customer security and networking issues and requirements, our customers’ spending levels, mergers and acquisitions involving our customers, industry developments, competition and general economic conditions. Our public sector customers are also subject to budgetary cycles and funding authorizations, and funding reductions or delays can result in delays in such customers renewing their contracts with us. We have experienced several of these delays in the current fiscal year, which has delayed our ability to grow our annual recurring revenue and therefore reduced revenues below our previous expectations, in addition to delaying expected cash flows. If our efforts to maintain and expand our relationships with our existing customers are not successful, our business, results of operations, and financial condition may materially suffer.

A limited number of customers represent a substantial portion of our revenue. If we fail to retain these customers, our revenue could decline significantly.

We derive a substantial portion of our revenue from a limited number of customers. For the fiscal year 2022, six customers accounted for approximately one-half of our revenue, with two of those customers accounting for over 20% of our annual revenue. During the first six months of fiscal 2023, two customers also accounted for over 20% of our revenue. However, two customers who had each represented more than 10% of our revenue in the first half of 2022 were no longer significant customers in the first half of fiscal 2023.

As a result of our customer concentration, which can vary from period to period, our revenue could fluctuate materially and could be materially and disproportionately impacted by purchasing decisions of these customers or any other significant future customer. Any of our significant customers may decide to purchase less than they have in the past, may alter their purchasing patterns at any time with limited notice, or may decide not to continue to license our products at all, any of which could cause our revenue to decline and adversely affect our financial condition and results of operations. If we do not further diversify our customer base, we will continue to be susceptible to risks associated with customer concentration.

Our results of operations may fluctuate significantly, which could make our future results difficult to predict and could cause our results of operations to fall below expectations.

Our results of operations have varied significantly from period to period, and we expect that our results of operations will continue to vary as a result of a number of factors, many of which are outside of our control and may be difficult to predict, including:

- the impact of the COVID-19 pandemic, including the emergence of variant strains of COVID-19, on our operations, financial results, and liquidity and capital resources, including on customers, sales, expenses, and employees;
- our ability to attract new and retain existing customers;
- the budgeting cycles, seasonal buying patterns, and purchasing practices of customers;
- the timing and length of our sales cycles;
- changes in customer or distribution partner requirements or market needs;
- changes in the growth rate of our market;
- the timing and success of new product and service introductions by us or our competitors or any other competitive developments, including consolidation among our customers or competitors;
- the level of awareness of cybersecurity threats, particularly advanced cyberattacks, and the market adoption of our platform;
- our ability to successfully expand our business domestically and internationally;
- decisions by organizations to purchase security solutions from larger, more established security vendors or from their primary IT equipment vendors;
- changes in our pricing policies or those of our competitors;
- any disruption in our relationship with distribution partners;
- insolvency or credit difficulties confronting our customers, affecting their ability to purchase or pay for our solutions;
- significant security breaches of, technical difficulties with or interruptions to, the use of our platform;
- extraordinary expenses such as litigation or other dispute-related settlement payments or outcomes;
- rising inflation and our ability to control costs, including our operating expenses;
- general economic conditions, both in domestic and foreign markets;
- future accounting pronouncements or changes in our accounting policies or practices;
- negative media coverage or publicity;
- political events, including the ongoing conflict between Russia and Ukraine;
- the amount and timing of operating costs and capital expenditures related to the expansion of our business; and
- increases or decreases in expenses caused by fluctuations in foreign currency exchange rates.

In addition, we experience seasonal fluctuations in our financial results as we can receive a higher percentage of our annual orders from new customers, as well as renewal orders from existing customers, in the fourth fiscal quarter as compared to other quarters due to the annual budget approval process of many of our customers. Any of the above factors, individually or in the aggregate, may result in significant fluctuations in our financial and other results from period to period.

As a result of this variability, our historical results of operations should not be relied upon as an indication of future performance. Moreover, this variability and unpredictability could result in our failure to meet our operating plan or the expectations of investors or analysts for any period. If we fail to meet such expectations for these or other reasons, our stock price could fall substantially, and we could face costly lawsuits, including securities class action suits.

Our business depends, in part, on sales to government organizations, and significant changes in the contracting or fiscal policies of such government organizations could have an adverse effect on our business and results of operations.

Our future growth depends, in part, on increasing sales to government organizations. Demand from government organizations is often unpredictable, subject to budgetary uncertainty and typically involves long sales cycles. We have made significant investments to address the government sector, but we cannot assure you that these investments will be successful, or that we will be able to maintain or grow our revenue from the government sector. In fiscal 2022 and so far in fiscal 2023, several contracts that we previously expected would be signed with government organizations have not yet materialized due to funding delays. Although we anticipate that they may increase in the future, sales to U.S. federal, state and local governmental agencies have not accounted for, and may never account for, a significant portion of our revenue. U.S. federal, state and local government sales are subject to a number of challenges and risks that may adversely impact our business. Sales to such government entities include the following risks:

- selling to governmental agencies can be highly competitive, expensive and time-consuming, often requiring significant upfront time and expense without any assurance that such efforts will generate a sale;
- government certification requirements applicable to our products may change and, in doing so, restrict our ability to sell into the U.S. federal government sector until it has attained the required certifications.

- government demand and payment for our platform may be impacted by public sector budgetary cycles and funding authorizations, with funding reductions or delays adversely affecting public sector demand for our platform;

- governments routinely investigate and audit government contractors' administrative processes, and any unfavorable audit could result in the government refusing to continue buying our platform, which would adversely impact our revenue and results of operations, or institute fines or civil or criminal liability if the audit were to uncover improper or illegal activities;

- interactions with the U.S. federal government may be limited by post-employment ethics restrictions on members of our management;

- foreign governments may have concerns with purchasing security products from a company that employs former NSA employees and officials, which may negatively impact sales; and

- governments may require certain products to be manufactured, hosted, or accessed solely in their country or in other relatively high-cost manufacturing locations, and we may not manufacture all products in locations that meet these requirements, affecting our ability to sell these products to governmental agencies.

We have achieved "FedRAMP-ready" status, but such status is only available for a certain period of time before which it must be utilized. If not utilized, we would likely have to go through certain parts of the FedRAMP process again in order to sell our products to government agencies. Moreover, even if we were to achieve FedRAMP-certified status, such certification is costly to maintain, and if we were to lose such a certification in the future it would restrict our ability to sell to government customers. It is also possible that additional guidelines and/or certifications, such as the Cybersecurity Maturity Model Certification, will be required to expand participation in the government sectors.

The occurrence of any of the foregoing could cause governments and governmental agencies to delay or refrain from purchasing our solutions in the future or otherwise have an adverse effect on our business and results of operations.

Our international operations expose us to significant risks, and failure to manage those risks could adversely impact our business.

We derived 11% and 12% of our total revenue from our international customers for the six months ended July 31, 2022 and 2021, respectively. Our growth strategy includes expansion into target geographies, but there is no guarantee that such efforts will be successful. These international operations will require significant management attention and financial resources and are subject to substantial risks, including:

- greater difficulty in negotiating contracts with standard terms, enforcing contracts, and managing collections, including longer collection periods;
- higher costs of doing business internationally, including costs incurred in establishing and maintaining office space and equipment for international operations and creating international operating entities, where applicable;
- management communication and integration problems resulting from cultural and geographic dispersion;
- risks associated with trade restrictions and foreign legal requirements, including any importation, certification, and localization of our platform that may be required in foreign countries;
- greater risk of unexpected changes in applicable foreign laws, regulatory practices, tariffs, and tax laws and treaties;
- compliance with anti-bribery laws, including the FCPA, the U.S. Travel Act and the Bribery Act, violations of which could lead to significant fines, penalties, and collateral consequences;
- heightened risk of unfair or corrupt business practices in certain geographies and of improper or fraudulent sales arrangements that may impact financial results and result in restatements of, or irregularities in, financial statements;
- the uncertainty of protection for intellectual property rights in some countries;
- general economic and political conditions in these foreign markets;
- foreign exchange controls or tax regulations that might prevent us from repatriating cash earned outside the United States;
- political and economic instability in some countries;
- the potential for foreign government demands for access to information or corporate property;
- double taxation of international earnings and potentially adverse tax consequences due to changes in the tax laws of the United States or the foreign jurisdictions in which we operate;
- unexpected costs for the localization of services, including translation into foreign languages and adaptation for local practices and regulatory requirements;
- requirements to comply with foreign privacy, data protection, and information security laws and regulations and the risks and costs of noncompliance;
- greater difficulty in identifying, attracting and retaining local qualified personnel, and the costs and expenses associated with such activities;
- greater difficulty identifying qualified distribution partners and maintaining successful relationships with such partners;
- differing employment practices and labor relations issues; and
- difficulties in managing and staffing international offices and increased travel, infrastructure, and legal compliance costs associated with multiple international locations.

Adverse changes in global, regional or local economic conditions, including recession or slowing growth, the COVID-19 pandemic or other global or local health issues, changes or uncertainty in fiscal, monetary, or trade policy, higher interest rates, tighter credit, inflation, lower capital expenditures by businesses including on IT infrastructure, increases in unemployment, and lower consumer confidence and spending, periodically occur. Increased costs for supply chain expenses, driven in part by inflation, have negatively impacted our results of operations and may continue to impact our results of operations. Inflation may also continue to cause increased supply, employee, facilities and infrastructure costs, decreased demand for our services and volatility in the financial markets. To the extent such inflation continues, increases or both, it may reduce our margins and have a material adverse effect on our results of operations.

Additionally, all of our sales contracts are currently denominated in U.S. dollars. However, a strengthening of the U.S. dollar could increase the cost of our solutions to our international customers, which could adversely affect our business and results of operations. In addition, an increasing portion of operating expenses is expected to be incurred outside the United States and denominated in foreign currencies, and will be subject to fluctuations due to changes in foreign currency exchange rates. If we become more exposed to currency fluctuations and are not able to successfully hedge against the risks associated with currency fluctuations, our results of operations could be adversely affected.

In addition, international nation states continue to increase their threats of action against other countries and high profile companies in them, as has most recently been evidenced by statements made by certain leaders relating to the recent military activity in Ukraine. The fact that we provide products and services to high profile customers in many of the countries that have been and remain under such threats and the high profile of leaders associated with us make those customers and us potential targets for attacks by those nation states and their proxies creating additional risks to our ability to continue to expand and operate effectively.

Our success will depend in large part on our ability to anticipate and effectively manage these risks. The expansion of our international operations and entry into additional international markets will require significant management attention and financial resources. Our failure to successfully manage international operations and the associated risks could limit the future growth of our business.

Our business will be subject to the risks of natural catastrophic events and to interruption by man-made problems such as power disruptions, computer viruses, data security breaches or terrorism.

A significant natural disaster, such as an earthquake, a fire, a flood, or significant power outage could have a material adverse impact on our business, results of operations and financial condition. Natural disasters could affect our personnel, data centers, supply chain, manufacturing vendors, or logistics providers' ability to provide materials and perform services such as manufacturing products or assisting with shipments on a timely basis. In addition, climate change could result in an increase in the frequency or severity of natural disasters. In the event that we or our service providers' information technology systems or manufacturing or logistics abilities are hindered by any of the events discussed above, we could result in missed financial targets, such as revenue, for a particular quarter. In addition, computer malware, viruses and computer hacking, fraudulent use attempts and phishing attacks have become more prevalent in the cybersecurity industry, and our internal systems may be victimized by such attacks. Likewise, we could be subject to other man-made problems, including but not limited to power disruptions, terrorist acts and the ongoing conflict between Russia and Ukraine.

Although we maintain incident management and disaster response plans, in the event of a major disruption caused by a natural disaster or man-made problem, we may be unable to continue our operations and may endure system interruptions, reputational harm, delays in our development activities, lengthy interruptions in service, breaches of data security and loss of critical data, and our insurance may not cover such events or may be insufficient to compensate it for the potentially significant losses we may incur. Acts of terrorism and other geo-political unrest could also cause disruptions in our business or the business of our supply chain, manufacturers, logistics providers, partners, or customers or the economy as a whole. Any disruption to our supply chain, manufacturers, logistics providers, partners or customers that impacts sales at the end of a fiscal quarter could have a significant adverse impact on our financial results. All of the aforementioned risks may be further increased if disaster recovery plans prove to be inadequate. To the extent that any of the above should result in delays or cancellations of customer orders, or the delay in the manufacture, deployment, or shipment of our products, our business, financial condition, and results of operations would be adversely affected.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

None.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Company has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

IRONNET, INC.

Date: September 14, 2022

By: /s/ James C. Gerber
James C. Gerber
Chief Financial Officer
(On behalf of the Registrant and as Principal Financial Officer)

AMENDED AND RESTATED EXECUTIVE EMPLOYMENT AGREEMENT, EFFECTIVE JUNE 14, 2022, BY AND BETWEEN DONALD CLOSSER

This Amended and Restated Employment Agreement (the “*Agreement*”) is entered into effective June 14, 2022 (the “*Effective Date*”), by and between Donald Closser (the “*Executive*”) and IronNet CyberSecurity, Inc. (the “*Company*”), and amends and restates in its entirety the Employment Agreement between the Company and Executive that was dated Sept. 19, 2019 (the “*Prior Agreement*”).

The Company desires to continue to employ Executive and, in connection therewith, to compensate the Executive for Executive’s personal services to the Company; and

The Executive wishes to continue to be employed by the Company and provide personal services and certain covenants to the Company in return for certain compensation and benefits.

This Agreement supersedes any and all prior and contemporaneous oral or written employment agreements or arrangements between Executive and the Company or any predecessor thereof.

Accordingly, in consideration of the mutual promises and covenants contained herein, the parties agree to the following:

1. Employment by the Company.

1.1 Position; Duties. Subject to the terms set forth herein, the Company agrees to employ Executive Donald Closser in the position of Chief Product Officer, and Executive hereby accepts such employment. During the term of Executive’s employment with the Company, Executive will devote the Executive’s best efforts, business time and attention to the business of the Company. Executive will report to the Co-CEO of the Company. Executive will perform such duties as are normally associated with his position, as assigned from time to time, subject to the oversight and direction of the Co-CEO’s. The Executive shall make such business trips to such places as may be necessary or advisable for the Company.

1.2 Company Policies. The employment relationship between the parties shall be subject to the Company’s personnel policies and procedures as they may be interpreted, adopted, revised or deleted from time to time in the Company’s sole discretion. Notwithstanding the foregoing, in the event that the terms of this Agreement differ from, or are in conflict with, the Company’s employment policies or practices, this Agreement shall control.

1.3 Expense Reimbursement. The Company will reimburse Executive for reasonable business expenses in accordance with the Company’s standard expense reimbursement policy, as the same may be modified by the Board from time to time. The Company shall reimburse Executive for all customary and appropriate business-related expenses actually incurred and documented in accordance with Company policy, as in effect from time to time. For the avoidance of doubt, to the extent that any reimbursements payable to Executive are subject to the provisions of Section 409A of the Internal Revenue Code of 1986, as amended (the “*Code*”): (a) any such reimbursements will be paid no later than December 31 of the year following the year in which the expense was incurred, (b) the amount of expenses reimbursed in one year will not affect the amount eligible for reimbursement in any subsequent year, and (c) the right to reimbursement under this Agreement will not be subject to liquidation or exchange for another benefit.

2. Compensation and Benefits.

2.1 Salary. Executive shall receive for Executive’s services to be rendered hereunder an initial base salary of \$_330,000.00_ on an annualized basis, subject to review and adjustment by the Company in its sole discretion, and payable subject to standard federal and state payroll withholding requirements in accordance with the Company’s standard payroll practices (“*Base Salary*”).

2.2 Annual Discretionary Bonus. Executive will be eligible for a discretionary annual (fiscal year) cash bonus with a target of thirty percent (30%) of Executive’s then current Base Salary, subject to review and adjustment from time to time by the Company in its sole discretion, payable subject to standard payroll withholding requirements (“*Target Bonus*”). Whether or not Executive receives any bonus will be dependent upon (a) the actual achievement by Executive and the Company of the applicable individual and corporate performance goals, as determined by the Board in its sole discretion, and (b) Executive’s continuous performance of services to the Company through the date any such bonus is paid. The bonus may be greater or lesser than the Target Bonus and may be zero. The annual period over which performance is measured for purposes of this bonus is the Company’s fiscal year, February 1 through January 31. The Board will determine in its sole discretion the extent to which each Executive and the Company has achieved the performance goals upon which the bonus is based and the amount of the bonus, if any. In the event the Executive leaves the employ of the Company for any reason prior to payment of any bonus, he is not eligible for such bonus, prorated or otherwise, except as provided in Section 6 below.

2.3 Equity. Executive shall be eligible to be granted such equity awards following the Effective Date as the Board shall determine in its sole discretion.

2.4 Benefits. Executive will be eligible to participate on the same basis as similarly situated employees in the Company’s benefit plans in effect from time to time during Executive’s employment. All matters of eligibility for coverage or benefits under any benefit plan shall be determined in accordance with the provisions of such plan. The Company reserves the right to change, alter, or terminate any benefit plan in its sole discretion.

3. Confidential Information and Restrictive Covenants. As a condition of employment, Executive agrees to execute and abide by the Employee Confidential Information, Inventions, Non-Competition and Non-Solicitation Agreement attached as Exhibit A (“*Confidential Information Agreement*”), which may be amended by the parties from time to time without regard to this Agreement. The Confidential Information Agreement contains provisions that are intended by the parties to survive and do survive termination of this Agreement.

4. Outside Activities. Except with the prior written consent of the CEO/Board, Executive will not, while employed by the Company, undertake or engage in any other employment, occupation or business enterprise that would interfere with Executive’s responsibilities and the performance of Executive’s duties hereunder except for (i) reasonable time devoted to volunteer services for or on behalf of such religious, educational, non-profit and/or other charitable organization as Executive may wish to serve, (ii) reasonable time devoted to activities in the non-profit and business communities consistent with Executive’s duties, and (iii) such other activities as may be specifically approved in writing by the CEO/Board. This restriction shall not, however, preclude the Executive (x) from owning less than one percent (1%) of the total outstanding shares of a publicly traded company, or (y) from employment or service in any capacity with Affiliates of the Company. As used in this Agreement, “*Affiliates*” means an entity under common management or control with the Company.

5. No Conflict with Existing Obligations. Executive represents that Executive’s performance of all the terms of this Agreement and service as an executive of the Company do not and will not breach any agreement or obligation of any kind made prior to Executive’s employment by the Company, including agreements or obligations Executive may have with prior employers or entities for which Executive has provided services. Executive has not entered into, and Executive agrees that Executive will not enter into, any agreement or obligation, either written or oral, in conflict herewith.

6. Termination of Employment. The parties acknowledge that the Executive's employment relationship with the Company is at-will. Either Executive or the Company may terminate the employment relationship at any time, with or without Cause, subject to the notice requirements set forth in Section 6.5. The provisions in this Section 6 govern the amount of compensation, if any, to be provided to the Executive upon termination of employment and do not alter this at-will status.

6.1 Termination by the Company without Cause; Resignation for Good Reason.

a. The Company shall have the right to terminate Executive's employment with the Company pursuant to this Section 6.1 at any time without "Cause" (as defined in Section 6.2(b) below) by giving notice as described in Sections 6.5 and 7.1 of this Agreement. A termination pursuant to Sections 6.2, 6.3, or 6.4 below is not a termination without Cause for purposes of receiving the benefits described in this Section 6.1.

b. Executive shall have the right to resign from his employment for Good Reason (as defined in Section 6.1(i)) by following the notice and cure process outlined in Section 6.1(i), provided that the circumstance creating Good Reason is not cured by the Company pursuant to Section 6.1(i),

c. If the Company terminates Executive's employment without Cause or Executive resigns from his employment with the Company for Good Reason, and provided that such termination constitutes a "separation from service" (as defined under Treasury Regulation Section 1.409A-1(h), without regard to any alternative definition thereunder, a "**Separation from Service**"), then Executive shall be entitled to receive the Accrued Obligations (defined in Section 6.1(f) below). If Executive complies with the obligations in Section 6.1(e) below, Executives shall be eligible to receive the following "**Severance Benefits**":

i. If the termination or resignation occurs at any time except during the Change in Control Measurement Period (as defined in Section 6.1(d) below), the Company will pay Executive an amount equal to Executive's then current Base Salary for six (6) months, less all applicable withholdings and deductions, and paid in equal installments beginning on the Company's first regularly scheduled payroll date following the Release Effective Date (as defined below in Section 6.1(e) below), with the remaining installments occurring on the Company's regularly scheduled payroll dates thereafter. If the termination or resignation occurs during the Change in Control Measurement Period, the Company will pay Executive an amount equal to Executive's then current Base Salary for twelve (12) months, less all applicable withholdings and deductions, in a lump sum on the Company's first regularly scheduled payroll date following the Release Effective Date.

ii. If the termination or resignation occurs at any time except during the Change in Control Measurement Period, then if Executive timely elects continued coverage under COBRA for himself and his covered dependents under the Company's group health plans following such termination, then the Company shall reimburse Executive for that portion of Executive's COBRA premiums it was paying prior to the Separation Date necessary to continue Executive's and his covered dependents' health insurance coverage in effect for himself (and his covered dependents) on the termination date until the earliest of: (i) six (6) months from the separation date; (ii) the date when Executive becomes eligible for substantially equivalent health insurance coverage in connection with new employment or self-employment; or (iii) the date Executive ceases to be eligible for COBRA continuation coverage for any reason, including plan termination (such prong from the termination date through the earlier of (i)-(iii), the "**Non-CIC COBRA Payment Period**"). Notwithstanding the foregoing, if at any time the Company determines that its payment of COBRA premiums on Executive's behalf would result in a violation of applicable law (including, but not limited to, the 2010 Patient Protection and Affordable Care Act, as amended by the 2010 Health Care and Education Reconciliation Act), then in lieu of paying COBRA premiums pursuant to this Section, the Company shall pay Executive on the last day of each remaining month of the Non-CIC COBRA Payment Period, a fully taxable cash payment equal to the COBRA premium for such month, subject to applicable tax withholding for the remainder of the Non-CIC COBRA Payment Period. Nothing in this Agreement shall deprive Executive of his rights under COBRA or ERISA for benefits under plans and policies arising under his employment by the Company. If the termination or resignation occurs during the Change in Control Measurement Period, then the COBRA Payment Period shall be modified with respect to prong (i) above to twelve (12) months, but prongs (ii) and (iii) above shall remain the same (the "**CIC COBRA Payment Period**").

iii. If the termination or resignation occurs after the completion of the Company's fiscal year, but before any bonuses are paid for such fiscal year, Executive will be eligible for a bonus for the completed fiscal year pursuant to the terms and process set forth in Section 2.2 above, dependent upon the actual achievement by Executive and the Company of the applicable individual and corporate performance goals, as determined by the Board in its sole discretion. The Company will pay Executive any bonus awarded for the completed fiscal year, less applicable withholdings and deductions, payable in a lump sum on the later of (A) the date that annual performance bonuses are normally paid to other executives at the Company for that fiscal year or (B) the Release Effective Date, but in no event later than March 15 the year immediately following the year in which the termination or resignation occurs (the "**Completed Year Bonus**"). In addition, if the termination or resignation occurs during the Change in Control Measurement Period, then the Company will make a lump sum cash payment to Executive in an amount equal to the full Target Bonus for the fiscal year in which the termination occurs, shall be subject to standard deductions and withholdings and will be paid in a lump sum on the sixtieth (60th) day following Executive's date of Separation from Service, provided the Release Effective Date has occurred on or before that date (the "**Change in Control Bonus**").

iv. If the termination or resignation occurs outside of the Change in Control Measurement Period the vesting of all outstanding equity awards subject only to a time-based vesting schedule that are held by Executive immediately prior to the termination date (if any) shall accelerate so that an additional six (6) months of vesting shall occur effective as of the Separation Date. If the termination or resignation occurs during the Change in Control Measurement Period, the vesting and exercisability of all outstanding equity awards subject only to a time-based vesting schedule that are held by Executive immediately prior to the termination date (if any) shall be accelerated in full.

d. A termination without Cause or a resignation for Good Reason in either case on or within twelve (12) months following or three (3) months prior to the effective date of a Change in Control of the Company (as defined in the Company's 2021 Equity Incentive Plan) is a termination or resignation during the "**Change in Control Measurement Period**."

e. Executive will be paid all of the Accrued Obligations on the Company's first payroll date after Executive's date of termination from employment or earlier if required by law. Executive shall receive the Severance Benefits if: (i) by the 60th day following the date of Executive's Separation from Service, he has signed and delivered to the Company a separation agreement containing an effective, general release of claims in favor of the Company and its affiliates and representatives, in a form presented by the Company that includes, among other terms, a general release of claims in favor of the Company and its affiliates and representatives and a non-competition clause (the "**Release**"), and which cannot be revoked in whole or part by such date (the date that the Release can no longer be revoked is referred to as the "**Release Effective Date**"); (ii) if he holds any other positions with the Company or any Affiliate, including a position on the Company's Board of Directors (the "**Board**"), he resigns such position(s) to be effective no later than the date of Executive's termination (or such other date as requested by the Board); (iii) he returns all Company property; (iv) he is in compliance with his post-termination obligations under this Agreement and the Confidential Information Agreement when any such Severance Benefits are due and payable; and (v) he complies with the terms of the Release, including without limitation any non-disparagement and confidentiality provisions contained in the Release. To the extent that any of the Severance Benefits are deferred compensation under Section 409A of the Code, and are not otherwise exempt from the application of Section 409A, then, if the period during which Executive may consider and sign the Release spans two calendar years, the payment of the Severance Benefits will not be made or begin until the later calendar year.

f. For purposes of this Agreement, "**Accrued Obligations**" are (i) Executive's accrued but unpaid salary through the date of termination, (ii) any unreimbursed business expenses incurred by Executive payable in accordance with the Company's standard expense reimbursement policies, (iii) payment for unused vacation (so long as the Company continues to maintain an accrual vacation policy on the date of Executive's termination); and (iv) benefits owed to Executive under any qualified retirement plan or health and welfare benefit plan in which Executive was a participant in accordance with applicable law and the provisions of such plan.

g. The Severance Benefits provided to Executive pursuant to this Section 6.1 are in lieu of, and not in addition to, any benefits to which Executive may otherwise be entitled under any Company severance plan, policy or program.

h. Any damages caused by the termination of Executive's employment without Cause would be difficult to ascertain; therefore, the Severance Benefits for which Executive is eligible pursuant to this Section 6.1 in exchange for the Release is agreed to by the parties as liquidated damages, to serve as full compensation, and not a penalty.

i. For purposes of this Agreement, "**Good Reason**" shall mean the occurrence of any of the following conditions without Executive's consent, after Executive's provision of written notice to the Company of the existence of such condition (which notice must be provided as described in Section 7.1 within thirty (30) days of the initial existence of the condition and must specify the particular condition in reasonable detail), provided that the Company has not first provided notice to Executive of its intent to terminate Executive's employment: (i) a material (greater than 10%) reduction by the Company of Executive's Base Salary (except in the case of either an across the board reduction in salaries or a temporary reduction due to financial exigency); (ii) the relocation of Executive's principal place of employment by fifty (50) or more miles from Executive's then-current principal place of employment; or (iii) a material reduction in Executive's duties, responsibilities or authorities relative to Employee's title, duties, authority, or responsibilities in effect immediately prior to such reduction, provided, however, that neither the conversion of the Company to a subsidiary, division or unit of an acquiring entity, nor an action taken by the Company for the purposes of either accommodating a disability of the Executive or pursuant to the Family and Medical Leave Act ("**FMLA**"), will be deemed a "material reduction" in and of itself. Notwithstanding the foregoing, Good Reason shall only exist if the Company is provided a thirty (30) day period to cure the event or condition giving rise to Good Reason, and it fails to do so within that cure period (and, additionally, Executive must resign for such Good Reason condition by giving notice as described in Section 7.1 within thirty (30) days after the period for curing the violation or condition has ended).

6.2 Termination by the Company for Cause.

a. The Company shall have the right to terminate Executive's employment with the Company at any time for Cause by giving notice as described in Section 6.5(a) or (c) of this Agreement.

b. For purposes of this Agreement, "**Cause**" shall mean that the Board/Company has determined in its sole discretion that Executive has engaged in any of the following: (i) a material breach of any covenant or condition under this Agreement or any other agreement between the Company and Executive; (ii) any act constituting dishonesty, fraud, immoral or disreputable conduct; (iii) any conduct which constitutes a felony under applicable law; (iv) violation of any Company policy or any act of misconduct, in either case that causes, or is likely to cause, harm to the Company or its reputation; (v) refusal to follow or implement a clear and reasonable directive of the Board/Company; (vi) breach of fiduciary duty; (vii) gross negligence or gross incompetence in the performance of Executive's duties or material failure to perform such duties in a manner satisfactory to the Company, in any case after the expiration of ten (10) days without cure after written notice of such failure.

c. In the event Executive's employment is terminated at any time for Cause, Executive will not receive the Severance Benefits as described in Section 6.1 or any other severance compensation or benefit, except that, consistent with the Company's standard payroll policies, the Company shall provide to Executive the Accrued Obligations.

6.3 Resignation by the Executive without Good Reason.

a. Executive may resign from Executive's employment with the Company at any time without Good Reason by giving notice as described in Section 6.5(e).

b. In the event Executive resigns from Executive's employment with the Company without Good Reason, Executive will not receive any Severance Benefits as described in Section 6.1 or any other severance compensation or benefit, except that, pursuant to the Company's standard payroll policies, the Company shall provide to Executive the Accrued Obligations.

6.4 Termination by Virtue of Death or Disability of the Executive.

a. In the event of Executive's death while employed pursuant to this Agreement, all obligations of the parties hereunder shall terminate immediately, and the Company shall, pursuant to the Company's standard payroll practices, provide to the Executive's legal representative(s) Executive's Accrued Obligations.

b. Subject to applicable state and federal law, the Company shall at all times have the right, upon written notice to Executive, to terminate this Agreement based on Executive's Disability (as defined below). Termination by the Company of Executive's employment based on "**Disability**" shall mean termination because the Executive is unable due to a physical or mental condition to perform the essential functions of his/her position with or without reasonable accommodation for six (6) months in the aggregate during any twelve (12) month period or based on the written certification by two licensed physicians of the likely continuation of such condition for such period. This definition shall be interpreted and applied consistent with the Americans with Disabilities Act, the FMLA, and other applicable law. In the event Executive's employment is terminated based on the Executive's Disability, Executive will not receive any Severance Benefits as described in Section 6.1 or any other severance compensation or benefit, except that, pursuant to the Company's standard payroll policies, the Company shall provide to Executive the Accrued Obligations.

6.5 Notice; Effective Date of Termination. Termination of Executive's employment pursuant to this Agreement shall be effective on the earliest of (each, the applicable "**Separation Date**"):

- a. immediately after the Company gives written notice to Executive of Executive's termination without Cause or with Cause pursuant to Section 6.2(b)(i)-(vi). In the event of a termination for Cause, such notice shall specify the subsection(s) of the definition of Cause relied on to support the decision to terminate;
- b. immediately upon the Executive's death;
- c. (i) ten (10) days after the Company gives written notice to Executive of its intent to terminate Executive for Cause pursuant to Section 6.2(b)(vii) if the condition giving rise to Cause is not timely cured; (ii) ten (10) days after the Company gives written notice to Executive of Executive's termination on account of Executive's Disability, unless the Company specifies a later date, in which case, termination shall be effective as of such later date, provided that Executive has not returned to the full time performance of Executive's duties prior to such date;
- d. immediately upon Executive's full satisfaction of the requirements of Section 6.1(i) for a resignation for Good Reason; and
- e. thirty (30) days after Executive gives written notice to the Company of Executive's resignation without Good Reason; *provided, however*, the Company may, in its sole discretion, set the termination on any date during the notice period so long as it continues to pay the Executive's base salary through the required notice period.

6.6 Cooperation After Termination of Employment. Following termination of Executive's employment for any reason, Executive shall fully cooperate with the Company and its parent companies or affiliates in all matters relating to the winding up of Executive's pending work including, but not limited to, any litigation in which the Company (or its parent companies or affiliates) is involved, and the orderly transfer of any such pending work to such other employees as may be designated by the Company

6.7 Application of Section 409A. It is intended that all of the severance payments payable under this Agreement satisfy, to the greatest extent possible, the exemptions from the application of Section 409A of the Code and the regulations and other guidance thereunder and any state law of similar effect (collectively, "**Section 409A**") provided under Treasury Regulations Sections 1.409A-1(b)(4) and 1.409A-1(b)(9), and this Agreement will be construed in a manner that complies with Section 409A. If not so exempt, this Agreement (and any definitions hereunder) will be construed in a manner that complies with Section 409A and incorporates by reference all required definitions and payment terms. No severance payments will be made under this Agreement unless Executive's termination of employment constitutes a "separation from service" (as defined under Treasury Regulation Section 1.409A-1(h)). For purposes of Section 409A (including, without limitation, for purposes of Treasury Regulations Section 1.409A-2(b)(2)(iii)), Executive's right to receive any installment payments under this Agreement (whether severance payments or otherwise) shall be treated as a right to receive a series of separate payments and, accordingly, each installment payment hereunder shall at all times be considered a separate and distinct payment. To the extent that any severance payments are deferred compensation under Section 409A, and are not otherwise exempt from the application of Section 409A, then, if the period during which Executive may consider and sign the Release spans two calendar years, the severance payments will not begin until the second calendar year. If the Company determines that the severance benefits provided under this Agreement constitutes "deferred compensation" under Section 409A and if Executive is a "specified employee" of the Company, as such term is defined in Section 409A(a)(2)(B)(i) of the Code at the time of Executive's Separation from Service, then, solely to the extent necessary to avoid the incurrence of the adverse personal tax consequences under Section 409A, the timing of the Severance will be delayed as follows: on the earlier to occur of (a) the date that is six months and one day after Executive's Separation from Service, and (b) the date of Executive's death (such earlier date, the "**Delayed Initial Payment Date**"), the Company will (i) pay to Executive a lump sum amount equal to the sum of the severance benefits that Executive would otherwise have received through the Delayed Initial Payment Date if the commencement of the payment of the severance benefits had not been delayed pursuant to this Section 6.7 and (ii) commence paying the balance of the severance benefits in accordance with the applicable payment schedule set forth in Section 6.1. No interest shall be due on any amounts deferred pursuant to this Section 6.7.

6.8 Parachute Payments. Notwithstanding any provision of this Agreement to the contrary, if any payment or benefit that Executive would receive from the Company pursuant to this Agreement or otherwise (each a "**Payment**") would: (i) constitute a "parachute payment" within the meaning of Section 280G of the Code; and (ii) but for this sentence be subject to the excise tax imposed by Section 4999 of the Code (the "**Excise Tax**"), then such Payment will be equal to the Reduced Amount (defined below). The "**Reduced Amount**" will be either: (1) the largest portion of the Payment that would result in no portion of the Payment (after reduction) being subject to the Excise Tax; or (2) the entire Payment, whichever amount after taking into account all applicable federal, state and local employment taxes, income taxes, and the Excise Tax (all computed at the highest applicable marginal rate, net of the maximum reduction in federal income taxes which could be obtained from a deduction of such state and local taxes), results in Executive's receipt, on an after-tax basis, of the greatest amount of the Payment. If a reduction in the Payment is to be made so that the Payment equals the Reduced Amount, (x) the Payment will be paid only to the extent permitted under the Reduced Amount alternative, and Executive will have no rights to any additional payments and/or benefits constituting the Payment, and (y) reduction in payments and/or benefits will occur in the following order: (A) reduction of cash payments; (B) cancellation of accelerated vesting of equity awards other than stock options; (C) cancellation of accelerated vesting of stock options; and (D) reduction of other benefits paid to Executive. In the event that acceleration of vesting of equity award compensation is to be reduced, such acceleration of vesting will be canceled in the reverse order of the date of grant of the Executive's equity awards. In no event will the Company or any stockholder be liable to the Executive for any amounts not paid as a result of the operation of this Section 6.8. The professional firm engaged by the Company as of the day prior to the closing will perform the foregoing calculations. The Company will bear all expenses with respect to the determinations by such firm required to be made hereunder. Any good faith determinations of the firm made hereunder will be final, binding and conclusive upon the Company and Executive.

7. General Provisions.

7.1 Notices. Any notices required hereunder to be in writing shall be deemed effectively given: (a) upon personal delivery to the party to be notified; (b) when sent, if sent by electronic mail, telex or confirmed facsimile during normal business hours of the recipient, and if not, then on the next business day; (c) five (5) days after having been sent by registered or certified mail, return receipt requested, postage prepaid, or (d) one (1) day after deposit with a nationally recognized overnight courier, specifying next day delivery, with written verification of receipt. All communications shall be sent to the Company at its primary office location, ATTN: CEO/BOARD OF DIRECTORS, and to Executive at Executive's address as listed on the Company payroll or Executive's company-provided email address, or at such other address as the Company or the Executive may designate by ten (10) days' advance written notice to the other.

7.2 Severability. Whenever possible, each provision of this Agreement will be interpreted in such manner as to be effective and valid under applicable law, but if any provision of this Agreement is held to be invalid, illegal or unenforceable in any respect under any applicable law or rule in any jurisdiction, such invalidity, illegality or unenforceability will not affect any other provision or any other jurisdiction, but this Agreement will be reformed, construed and enforced in such jurisdiction as if such invalid, illegal or unenforceable provisions had never been contained herein.

7.3 Waiver. If either party should waive any breach of any provisions of this Agreement, Executive or it shall not thereby be deemed to have waived any preceding or succeeding breach of the same or any other provision of this Agreement.

7.4 Complete Agreement. This Agreement, along with the Employee Confidential Information, Inventions, Non-Competition and Non-Solicitation Agreement, constitutes the entire agreement between Executive and the Company with regard to the subject matter hereof. This Agreement is the complete, final, and exclusive embodiment of their agreement with regard to this subject matter and supersedes any prior oral discussions or written communications and agreements, including but not limited to the Prior Agreement. This Agreement is entered into without reliance on any promise or representation other than those expressly contained herein, and it cannot be modified or amended except in writing signed by the Executive and an authorized officer of the Company. The parties have entered into a separate Confidential Information Agreement and have entered or may enter into other agreements governing Executive's equity grant(s). Any such separate agreements govern other aspects of the relationship between the parties, have or may have provisions that survive termination of the Executive's employment under this Agreement, may be amended or superseded by the parties without regard to this Agreement and are enforceable according to their terms without regard to the enforcement provision of this Agreement

7.5 Counterparts. This Agreement may be executed in separate counterparts, any one of which need not contain signatures of more than one party, but all of which taken together will constitute one and the same Agreement.

7.6 Headings. The headings of the sections hereof are inserted for convenience only and shall not be deemed to constitute a part hereof nor to affect the meaning thereof.

7.7 Successors and Assigns. The Company shall assign this Agreement and its rights and obligations hereunder in whole, but not in part, to any company or other entity with or into which the Company may hereafter merge or consolidate or to which the Company may transfer all or substantially all of its assets, if in any such case said company or other entity shall by operation of law or expressly in writing assume all obligations of the Company hereunder as fully as if it had been originally made a party hereto, but may not otherwise assign this Agreement or its rights and obligations hereunder. The Executive may not assign or transfer this Agreement or any rights or obligations hereunder, other than to his estate upon his death.

7.8 Choice of Law. All questions concerning the construction, validity and interpretation of this Agreement will be governed by the laws of Texas.

7.9 Resolution of Disputes. To ensure the rapid and economical resolution of disputes that may arise in connection with Executive's employment with the Company, Executive and the Company agree that any and all disputes, claims, or causes of action, in law or equity, including but not limited to statutory claims, arising from or relating to the enforcement, breach, performance, or interpretation of this Agreement, Executive's employment with the Company, or the termination of Executive's employment, shall be resolved pursuant to the Federal Arbitration Act, 9 U.S.C. §1-16, to the fullest extent permitted by law, by final, binding and confidential arbitration conducted by Judicial Arbitration and Mediation Services, Inc. or its successor ("**JAMS**") in the greater Leander, TX area, under JAMS' then-applicable rules and procedures for employment disputes before a single arbitrator (available upon request and also currently available at: <https://www.jamsadr.com/rules-employment-arbitration/>). **Executive acknowledges that by agreeing to this arbitration procedure, both Executive and the Company waive the right to resolve any such dispute through a trial by jury or judge or administrative proceeding.** In addition, all claims, disputes, or causes of action under this Section, whether by Executive or the Company, must be brought in an individual capacity, and shall not be brought as a plaintiff (or claimant) or class member in any purported class or representative proceeding, nor joined or consolidated with the claims of any other person or entity. The arbitrator may not consolidate the claims of more than one person or entity, and may not preside over any form of representative or class proceeding. To the extent that the preceding sentences regarding class claims or proceedings are found to violate applicable law or are otherwise found unenforceable, any claim(s) alleged or brought on behalf of a class shall proceed in a court of law rather than by arbitration. This paragraph shall not apply to any action or claim that cannot be subject to mandatory arbitration as a matter of law to the extent such claims are not permitted by applicable law(s) to be submitted to mandatory arbitration and the applicable law(s) are not preempted by the Federal Arbitration Act or otherwise invalid (collectively, the "**Excluded Claims**"). In the event Executive intends to bring multiple claims, including one of the Excluded Claims listed above, the Excluded Claims may be filed with a court, while any other claims will remain subject to mandatory arbitration. Executive will have the right to be represented by legal counsel at any arbitration proceeding. Questions of whether a claim is subject to arbitration under this Agreement shall be decided by the arbitrator. Likewise, procedural questions which grow out of the dispute and bear on the final disposition are also matters for the arbitrator. The arbitrator shall: (a) have the authority to compel adequate discovery for the resolution of the dispute and to award such relief as would otherwise be permitted by law; and (b) issue a written statement signed by the arbitrator regarding the disposition of each claim and the relief, if any, awarded to each claim, the reasons for the award, and the arbitrator's essential findings and conclusions on which the award is based. The arbitrator shall be authorized to award all relief that Executive or the Company would be entitled to seek in a court of law and any such awards may be entered into and enforced as judgments in federal and state courts of any competent jurisdiction. The Company shall pay all AAA/JAMS arbitration fees in excess of the administrative fees that Executive would be required to pay if the dispute were decided in a court of law. Except as modified in the Confidential Information Agreement, each party is responsible for its own attorneys' fees. Nothing in this Agreement is intended to prevent either Executive or the Company from obtaining injunctive relief in court to prevent irreparable harm pending the conclusion of any such arbitration. Any awards or orders in such arbitrations may be entered and enforced as judgments in the federal and state courts of any competent jurisdiction.

7.10 In Witness Whereof, the parties have executed this Executive Employment Agreement on the day and year first written above.

AMENDMENT TO EMPLOYMENT AGREEMENT, EFFECTIVE AS OF JUNE 21, 2022, BY AND BETWEEN THE REGISTRANT AND JAMES GERBER

This is an amendment to the Employment Agreement dated September 6, 2019 between IronNet Cybersecurity, Inc. (now IronNet, Inc.) and James Gerber ("Employment Agreement"), and is effective on June 21, 2022.

1. The initial paragraph of Section 4 of the Employment Agreement is amended to read as follows:

"4. Severance Benefits (Outside of Change in Control). If Executive is subject to an Involuntary Termination (as defined in Section 4.b below) other than within twelve (12) months following a Change in Control (as defined below), the Company will: (i) pay Executive a single lump sum cash severance payment in an amount equal to the sum of (a) six (6) months of Executive's base salary, and (b) a portion of Executive's annual bonus opportunity for the fiscal year in which the Involuntary Termination occurred (based on the extent to which the relevant target milestones applicable to Executive have been achieved as of the date of such Involuntary Termination, as determined by the Board in its discretion) (with such severance payment subject to all applicable taxes and withholdings), and (ii) provide for twelve (12) months of accelerated vesting of all then outstanding restricted stock units (RSUs) held by Executive that are subject to service-based vesting. In addition, should Executive timely elect and be eligible to continue receiving group health insurance pursuant to "COBRA," the Company will, until the earlier of (x) the date that is six (6) months following the date of Involuntary Termination, and (y) the date on which Executive obtains alternative coverage (as applicable, the "COBRA Contribution Period"), reimburse Executive on a monthly basis for the full amount of the premiums for such COBRA coverage. To the extent that such reimbursement payments are taxable to Executive, then such reimbursements shall be grossed up by the Company. The remaining balance of any premium costs during the COBRA Contribution Period, and all premium costs thereafter, shall be paid by Executive on a monthly basis for as long as, and to the extent that, Executive remains eligible for COBRA continuation. Executive agrees that, should Executive obtain alternative health insurance coverage prior to the date that is six (6) months following the date of Involuntary Termination, Executive will so inform the Company in writing within five (5) business days of obtaining such coverage."

2. The remaining provisions of the Employment Agreement will remain in full force and effect.

**CERTIFICATION OF PRINCIPAL EXECUTIVE OFFICER PURSUANT TO
RULES 13a-14(a) AND 15d-14(a) UNDER THE SECURITIES EXCHANGE ACT OF 1934,
AS ADOPTED PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Keith B. Alexander, certify that:

1. I have reviewed this quarterly report on Form 10-Q of IronNet, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**CERTIFICATIONS OF
PRINCIPAL EXECUTIVE OFFICER AND PRINCIPAL FINANCIAL OFFICER
PURSUANT TO 18 U.S.C. SECTION 1350,
AS ADOPTED PURSUANT TO
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002**

In connection with the Quarterly Report of IronNet, Inc. (the "Company") on Form 10-Q for the quarter ended July 31, 2022 as filed with the Securities and Exchange Commission on the date hereof, to which this Certification is attached as Exhibit 32.1 (the "Report"), I hereby certify, pursuant to 18 U.S.C. § 1350, as adopted pursuant to § 906 of the Sarbanes-Oxley Act of 2002, that:

- (1) The Report fully complies with the requirements of Section 13(a) or Section 15(d) of the Securities Exchange Act of 1934, as amended; and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition of the Company at the end of the period covered by the Report and the results of operations of the Company for the periods covered in the financial statements in the Report.
